### *Describe your experience within the AGP in one sentence.*

The AGP offered me the chance to work in three different departments at PwC, and during these rotations I was able to find out what kind of work I liked most and where I wanted to go after finishing the programme.

### *What was the highlight of your AGP?*

The highlight for me was without a doubt the six-month secondment to PwC in London, where I not only experienced what it is like to work in the largest PwC office in Europe but also was able to enjoy the London lifestyle.
