

VAT ***Healthcheck***

Find VAT savings and risks quickly and keep your company VAT compliant

We provide the value you need

VAT Healthcheck

Find VAT savings and risks quickly and keep your company VAT compliant with VAT Healthcheck – Our digital solution to help you understand your data better.

With VAT Healthcheck you can:

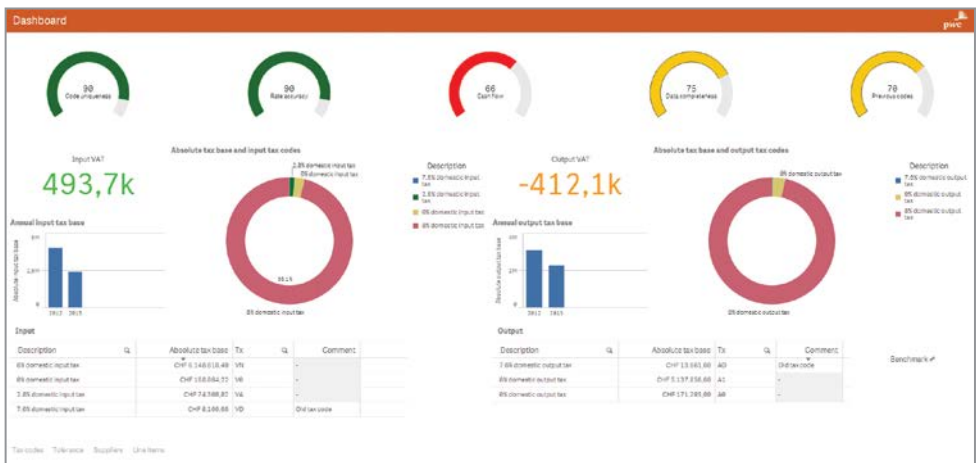

- Check all your data, not just spot check small batches of data
- Drill down to line items at the 'push of a button'
- Immediately see if you're reclaiming all the VAT you're entitled to
- Check if you're making your claims as quickly as possible to maintain good cash flow
- Save time – there's no more need for manual checking
- Know how you are doing compared to your peers

So how does it work?

Just send us your data following our simple instructions and we'll do the rest. There's no need for IT support. We'll run a report analysing for risk, supplier payments and VAT claims.

We'll give you a benchmark based on our industry knowledge, so you know how you're doing compared to your peers. And if you need to rethink any process or system changes, we're happy to discuss it with you. We can also carry our regular VAT Healthcheck on a schedule that fits your business needs.

If you'd like more information, please get in touch. We're happy to help and explain more.
