

International Business Reorganisations (IBR) in Switzerland

Making your legal resources go further

www.pwc.ch

Who are we and what do we bring to the table?

- We are a team of Swiss and international qualified lawyers based in Switzerland.
- We are part of the biggest global network of more than 3,500 legal professionals in more than 90 countries.
- We bring a deep understanding of cross-functional roles and experience in legal service offerings in an international context.

What do we do?

We provide multinational corporations with legal support, local feasibility checks and legal implementation for corporate transactions such as:

- Pre-spin-off structuring and carve-out transactions;
- Post-deal legal integrations;
- Tax structuring implementation and (cross-border) intra-group corporate day-to-day work (dividend distributions, contributions, nominal capital changes, entity conversions, etc.);
- Entity rationalisations and simplifications (including incorporations, liquidations, mergers);
- Alignment of corporate structures to new operating models.

What do you get from us that others can't provide?

People + insight + technology

Global coverage: the most extensive legal network in the world to provide seamless and holistic legal solutions in an instant;

Multidisciplinary approach: one-stop shop, tax and corporate legal structuring advice, involving additional lines of services as required (TP, strategy, valuation, employment, etc.);

Less strain on your legal team: your in-house resources are freed up for other value-adding work in core business areas; and

Flexible engagement models: single engagement lead and flexible billing methods such as fixed fee arrangements across multiple jurisdictions.
