

SAP Global Trade Services (GTS) Portfolio

The OnDemand platform for customs
and foreign trade

We advise you in all areas of SAP GTS with regard to customs and foreign trade processes. Aside from the implementation, support and continuous improvement of SAP GTS processes, we also provide you with access to our SAP GTS OnDemand solution, which is unique in the world.

Compliance with customs and foreign trade regulations

SAP AG introduced the product SAP GTS in 2003, a solution which ensures that legal regulations in customs and trade can be adhered to. Compliance with legal framework regulations for international trade can be especially well achieved with the help of the GTS customs and foreign trade solution.

SAP GTS OnDemand in a nutshell

- Software as a Service (SaaS)
- Operated by PwC
- Access to broad trade functionality
- System enforced trade compliance
- Aligned with regulatory evolution
- Reduced up-front investment
- Reduced complexity
- PwC is single contractual partner
- Cost transparency

The challenge

A significant proportion of industrial companies' total costs falls on logistics, and this is increasingly the case in today's globalised world. Along with service quality requirements, many companies have to deal with a number of new and important fields of activity and optimisation. In order to succeed, they will need forward-thinking strategy and management advice in customs and foreign trade.

The solution

SAP GTS OnDemand is an affordable cloud solution for optimising the customs and foreign trade processes of medium-sized companies, and integrates seamlessly into the SAP ERP system landscape. This unique tool is managed by PwC Germany and PwC Switzerland localise its implementation and support.

Thanks to our comprehensive experience in compliance, customs and risk management, we are the right partner for you when it comes to optimising and speeding up your business processes.

We can help you with GTS process outsourcing and monitoring as well, allowing you to focus on your core competencies.

Fig. 1 PwC's customs experts

Switzerland

- Presence in all main Swiss cities
- 15 customs, trade and GTS specialists
- Long-standing SAP GTS experience

Europe

The Customs Centre of Excellence in Europe has more than 170 customs experts and GTS specialists.

Global

The global PwC network comprises customs experts in more than 130 countries.

Our approach

We deliver advisory services in the field of customs and foreign trade for companies that want to implement or optimise SAP GTS. Furthermore, we will support you with strategic alignment issues, develop individual solutions, ensure proper running of the GTS application (ticket support) and provide the necessary training.

In our work we adopt an integrated approach with a clear focus on customer needs and solution-oriented action. Based on the company's strategy, we combine process consulting and IT consulting in order to integrate all internal and external interfaces along the entire logistics chain. In close cooperation with you, we will develop solutions tailored to your specific needs. An important factor in strategic alignment for the smooth running of business processes is the dynamic and flexible coordination between process management and IT service management. By taking this approach, we offer you efficient support in complete document processing runs for customs and foreign trade. Furthermore, we can provide you with resources, in-house training as well as on-site and off-site technology. You will have cost transparency and you can avoid risky investments.

Your benefit

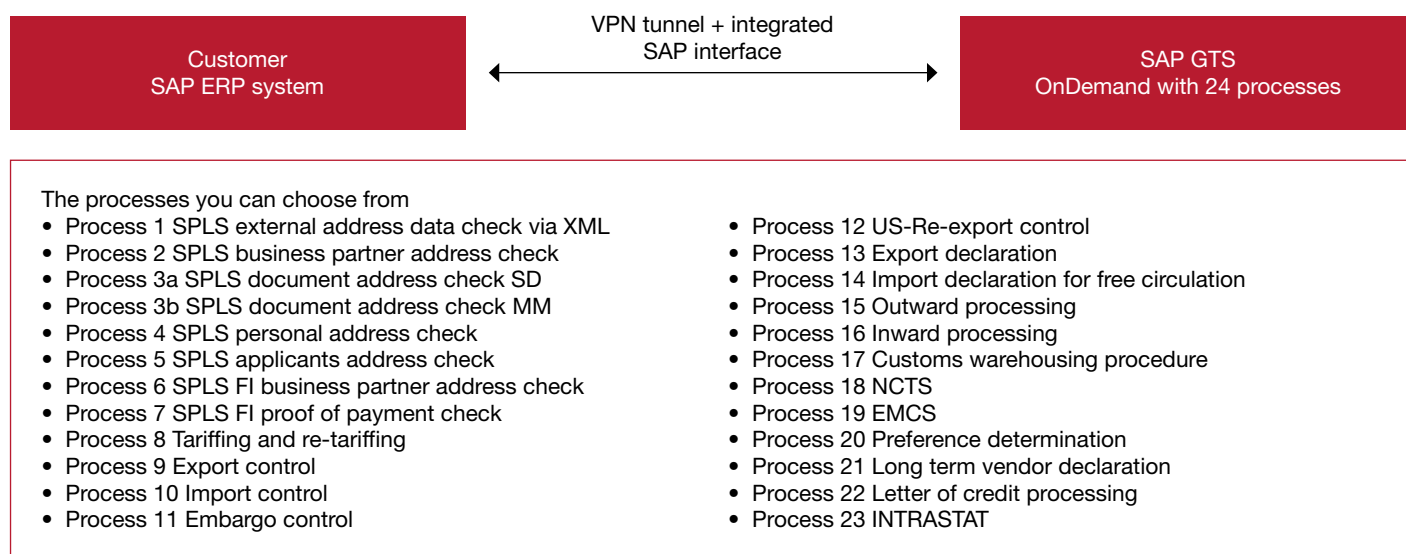

The SAP GTS OnDemand solution is a cost-effective alternative to many other solutions available on the on-premises software market:

- You can cut costs along the supply chain.
- You can use single SAP GTS processes without having to install a complete system.
- You get a low-cost, high-end solution with all standard SAP GTS functionalities.
- You will benefit from a scalable system and you can choose to add further processes if necessary.
- You need no additional hardware, no SAP basis know-how and no licences.
- You will benefit from fast implementation and full integration into your SAP ERP system landscape.
- You will be charged a fixed basic fee and volume-based usage fees, thus ensuring cost transparency tailored to your transaction volume.
- Trade data content, such as product classification, will be updated automatically and free of charge.

In addition:

- You can reduce costs through proper and target-oriented use of customs processes.
- You will be less at risk of fines and legal prosecution as well as revocation of customs permits.
