The Swiss VAT Law

The current law as of 1.1.2018
Preamble

Dear Client, dear reader

On 1 January 2018, the regulations of the partially revised Swiss VAT law came into force. At the same time, the Swiss VAT rates have fallen for the first time in history.

We have taken this opportunity surrounding these changes to publish a current version of our VAT brochure. It is a handy edition of the relevant laws and ordinances. In addition, the preface contains a short and concise description of the function of VAT.

If you have further questions, please do not hesitate to contact our consultants.

Federal Act
on Value Added Tax
(Value Added Tax Act, VAT Act)

of 12 June 2009 (Status as of 1 January 2018)

The Federal Assembly of the Swiss Confederation,
based on Article 130 of the Federal Constitution1,
and having considered the Dispatch of the Federal Council dated 25 June 20082,
decrees:

Title 1      General Provisions

Art. 1      Subject and principles
1 The Confederation shall levy a general consumption tax based on the system of net all-phase taxation with input tax deduction (Value Added Tax). The purpose of the tax is to tax non-business end use on Swiss territory.

2 As Value Added Tax, it levies:
   a. a tax on goods and services supplied for consideration by taxable persons on Swiss territory (domestic tax);
   b. a tax on the acquisition by recipients on Swiss territory of supplies from businesses domiciled abroad (acquisition tax);
   c. a tax on the import of goods (import tax).

3 The tax is levied on the following principles:
   a. competitive neutrality;
   b. efficiency of payment and imposition;
   c. transferability.
Art. 2 Relationship to cantonal law

1 Ticket taxes and taxes on the transfer of title that are imposed by the cantons and communes do not qualify as taxes of the same nature as those defined in Article 134 of the Federal Constitution.

2 They may be imposed to the extent they do not include Value Added Tax in their assessment basis.

Art. 3 Definitions

In this Act:

a. *Swiss territory* means the territory of the Swiss Confederation together with the customs enclaves according to Article 3 paragraph 2 of the Customs Act of 18 March 2005⁴ (CustA).

b. *Goods* means movable and immovable objects and electricity, gas, heating, refrigeration and the like.

c. *Supply* means the concession of a usable economic asset to a third party in expectation of a consideration, even if it is required by law or based on an official order.

d. *Supply of goods* means:
   1. the transfer of the power to dispose of a good commercially in one’s own name;
   2. the delivery of a good on which work has been performed, even if the good is not altered by the work, but only tested, calibrated, regulated, checked for its function or has been treated in another way;
   3. making a good available for use or exploitation.

e. *Supply of services* means every supply that is not a supply of goods; a supply of services is also made if:
   1. intangible assets and rights are made available;
   2. an action is omitted or an action or a situation is tolerated.

f. *Consideration* means an asset which the recipient or, in place of the recipient, a third party expends in return for receipt of a supply.

g. *Sovereign activity* means an activity of a public authority or of a person or organisation acting for a public authority without business character, in particular where it is not marketable and not in competition with activities of private suppliers, even if fees, contributions or other charges are levied for it.

h. *Closely related persons* means:

---

³ SR 631.0
1. the owners of at least 20 per cent of the nominal or basic capital of a business or of an equivalent participation in a partnership, or persons associated with them,

2. foundations and associations with which there is a particularly close economic, contractual or personal relationship; pension schemes are not regarded as closely related persons.

i.6 **donation** means a voluntary contribution with the intention of enriching the recipient without expectation of a consideration in the VAT sense; a contribution also qualifies as a donation if:

1. the contribution is mentioned on one or more occasions in a publication in neutral form, even if the name or the logo of the donor is used,

2. it is a contribution by passive members and by patrons to associations or to charitable organisations; contributions by patrons to charitable organisations are also deemed to be donations if the charitable organisation voluntarily grants its patrons advantages in terms of its articles provided it informs the patron that they have no right to be granted the advantages.

j. **Charitable organisation** means an organisation which fulfils the requirements that apply for Direct Federal Tax pursuant to Article 56 letter g DFTA.

k. **Invoice** means any document by which the consideration for a supply is settled with a third party, irrespective of how the document is titled in business transactions.

**Art. 4** Samnaun and Sampuoir

1 As long as the valley areas of Samnaun and Sampuoir remain outside Swiss customs territory, this Act applies in both valley areas only to services.7

2 The loss of tax revenue suffered by the Confederation as a result of paragraph 1 must be compensated for by the communes of Samnaun and Valsot.8

3 The Federal Council regulates the details in consultation with the communes of Samnaun and Valsot. In doing so it shall take appropriate account of the savings resulting from the lower cost of levying the tax.9

---

7 As the legal successor to the commune of Tschlin, Valsot must from 1 Jan. 2013 compensate the Confederation for tax-free supplies made on its part of the customs enclave (AS 2012 3551).

Art. 5  Indexation
The Federal Council shall decide on the adjustment of the Swiss franc amounts mentioned in Articles 31 paragraph 2 letter c, 37 paragraph 1, 38 paragraph 1 and 45 paragraph 2 letter b, as soon as the Swiss consumer price index has increased by more than 30 per cent since the most recent adjustment.

Art. 6  Passing on of the tax
1 The passing on of the tax is based on agreements governed by private law.
2 The civil courts are competent to judge disputes about the passing on of the tax.

Art. 7  Place of supply of goods
1 The place of supply of goods is the place where:
   a. the good is located at the time of transfer of the power to dispose commercially of it, of its delivery or of its being made available for use or exploitation;
   b. the transport or dispatch of the good to the customer or to a third party on his instructions begins.
2 The place of supply of electricity by cable, gas via the natural gas distribution network or district heating is deemed to be the place at which the recipients of the supply have their registered office or a permanent establishment for which the supply is made, or, in the absence of such a registered office or such a permanent establishment, the place where the electricity, gas or district heating is actually used or consumed.10
3 In the case of the supply of a good from abroad to Swiss territory, the place of supply is deemed to be on Swiss territory, provided the supplier:
   a. has authorisation from the Federal Tax Administration (FTA) to import the good in its own name (declaration of subordination), and does not waive authorisation at the time of import; or
   b.11 ... 12

Art. 8  Place of supply of a service

2 The place of supply of the following services is deemed to be:

a. for services that are typically supplied directly in the physical presence of individuals, even if exceptionally they are supplied at a distance: the place where the person supplying the service has his registered office or a permanent establishment, or in the absence of such a registered office or such a permanent establishment the domicile or the place from which the person works; such services are in particular: healing treatments, therapies, nursing, personal hygiene, marriage, family and life counselling, social services and social welfare services and child and youth care;

g. for services in the area of international development cooperation and humanitarian help: the place for which the service is destined.

Art. 9 Avoidance of distortion of competition

In order to avoid a distortion of competition due to the double taxation or non-taxation of cross-border supplies, the Federal Council may, in divergence from Article 3, regulate the definition of supplies of goods and services and, in divergence from Articles 7 and 8, determine the place of supply.
Art. 10 Principle

1 Any person, irrespective of legal form, objects and intention to make a profit, is liable to the tax if that person carries on a business and:
   a. makes supplies on Swiss territory through that business; or
   b. has its registered office, domicile or permanent establishment on Swiss territory.13

1bis A person carries on a business if he:
   a. independently performs a professional or commercial activity with the aim of sustainably earning income from supplies, irrespective of the amount of the inflow of funds that do not qualify as a consideration under Article 18 paragraph 2; and
   b. acts externally under his own name.14

1ter The purchase, holding and sale of interests under Article 29 paragraphs 2 and 3 qualifies as a business activity.15

2 Exempt from tax liability under paragraph 1 is any person who:
   a. within one year generates on Swiss territory and abroad turnover from supplies of less than 100,000 francs that are not exempt from the tax without credit under Article 21 paragraph 2;

      1. supplies exempt from the tax,
      2. services whose place of supply in terms of Article 8 paragraph 1 is located on Swiss territory; not exempt from tax liability is, however, any person who supplies telecommunication or electronic services to recipients who are not liable to the tax,

   c. as a non-profit, voluntarily-run sporting or cultural association or as a charitable organisation generates on Swiss territory and abroad within one year a

turnover from supplies of less than 150,000 francs that are not exempt from the tax without credit under Article 21 paragraph 2.\footnote{Amended by No I of the FA of 30 Sept. 2016, in force since 1 Jan. 2018 (AS \textit{2017} 3575; BBl \textit{2015} 2615).} 
\footnote{Amended by No I of the FA of 30 Sept. 2016, in force since 1 Jan. 2018 (AS \textit{2017} 3575; BBl \textit{2015} 2615).}

\textit{2bis} The turnover is calculated on the basis of the agreed considerations without the tax.\footnote{Inserted by No I of the FA of 30 Sept. 2016, in force since 1 Jan. 2018 (AS \textit{2017} 3575; BBl \textit{2015} 2615).}

\footnote{Inserted by No I of the FA of 30 Sept. 2016, in force since 1 Jan. 2018 (AS \textit{2017} 3575; BBl \textit{2015} 2615).}

\footnote{Inserted by No I of the FA of 30 Sept. 2016, in force since 1 Jan. 2018 (AS \textit{2017} 3575; BBl \textit{2015} 2615).}

3 The place of business on Swiss territory and all domestic permanent establishments together represent a single taxable person.

\textbf{Art. 11} Waiver of exemption from tax liability

1 Any person who carries on a business and is exempt from tax liability under Article 10 paragraph 2 or 12 paragraph 3 has the right to waive exemption from tax liability.

2 Exemption from tax liability must be waived for at least one tax period.

\textbf{Art. 12} Public authorities

1 Among the public authorities, taxable persons are the autonomous agencies of the Confederation, cantons and communes and the other public law institutions.

2 Agencies may combine as a single taxable person. The combination may be elected for at the beginning of any tax period. It must be retained for at least one tax period.

3 A taxable person that is part of a public authority is exempt from tax liability as long as less than 100,000 francs turnover per year derive from taxable supplies to persons other than public authorities. The turnover is measured by the agreed considerations without the tax.\footnote{Amended by No I of the FA of 30 Sept. 2016, in force since 1 Jan. 2018 (AS \textit{2017} 3575; BBl \textit{2015} 2615).}

4 The Federal Council determines what supplies made by public authorities qualify as business activity and are therefore taxable.

\textbf{Art. 13} Group taxation

1 Legal entities with their registered office or a permanent establishment in Switzerland which are closely associated with one another under the common management of a single legal entity may on application combine as a single taxable person (a VAT group). The group may also include legal entities which do not carry on a business, and individuals.

2 The decision to combine as a VAT group may be made for the beginning of any tax period. Termination of a VAT group is possible at the end of any tax period.
Art. 14  Commencement and termination of tax liability and of exemption from tax liability

1 Tax liability commences:
   a. for businesses with registered office, domicile or permanent establishment on Swiss territory: with the commencement of the business activity;
   b. for all other businesses: on making a supply for the first time on Swiss territory.19

2 Tax liability ends:
   a. for businesses with registered office, domicile or permanent establishment on Swiss territory:
      1. on cessation of the business activity,
      2. on liquidation of assets: with the conclusion of the liquidation procedure;
   b. for all other businesses: at the end of the calendar year in which a supply was made on Swiss territory for the last time.20

3 Exemption from tax liability ends as soon as the total of the turnovers generated in the last financial year reaches the threshold in Article 10 paragraph 2 letters a or c or 12 paragraph 3, or it is foreseeable that the threshold will be exceeded within 12 months of commencing or extending the business activity.

4 Waiver of the exemption from tax liability may be declared at the earliest for the beginning of the current tax period.

5 If the qualifying turnover of the taxable person does not reach the turnover threshold under Article 10 paragraph 2 letters a or c or 12 paragraph 3 and it is expected that the qualifying turnover will also not be reached in the following tax period, the taxable person must de-register. De-registration is not possible before the end of the tax period in which the qualifying turnover is not reached. Failure to de-register is deemed to be waiver of the exemption from tax liability under Article 11. The waiver applies from the beginning of the following tax period.

Art. 15  Joint liability

1 Jointly and severally liable with the taxable person are:
   a. partners in a simple partnership, a general or limited partnership within the scope of their civil law liability;
   b. persons who voluntarily conduct or arrange an auction;

c. any person or unincorporated entity, with the exception of pension schemes, that is a member of a VAT group (Art. 13) for all taxes payable by the group; if a person or unincorporated entity withdraws from the group, they are liable only for the tax claims that have arisen from their own business activity;

d. on transfer of a business: the previous tax debtor for three years after the announcement or reporting of the transfer for tax claims that arose before the transfer;

e. on termination of the tax liability of a wound up legal entity, trading company or partnership without legal personality: the persons entrusted with the liquidation up to the amount of the liquidation surplus;

f. for the tax of a legal person that relocates its domicile abroad: the managing bodies up to the amount of the net assets of the legal entity.

2 The persons designated in paragraph 1 letters e and f are liable only for the tax, interest and cost claims which arise or fall due under their management; their liability lapses if they can prove that they have done everything that could reasonably be expected of them to ascertain and satisfy the tax claim.

3 Liability under Article 12 paragraph 3 of the Federal Act of 22 March 1974 on Administrative Criminal Law (ACLA) is reserved.

4 If a taxable person assigns claims from his business to third parties, the latter are liable on a subsidiary basis for the VAT included in the assignment if at the date of the assignment, the tax debt due to the FTA has not yet arisen and a certificate of shortfall is available.

5 The person jointly and severally liable has in proceedings the same rights and obligations as the taxable person.

Art. 16 Succession to tax liability

1 If a taxable individual dies, his rights and obligations pass to his heirs. They are jointly and severally liable for the taxes owed by the deceased up to the amount of their share of the estate, including amounts received in advance.

2 A person who takes over a business acquires the tax rights and obligations of his legal predecessor.

Art. 17 Tax substitution

Satisfaction of the tax liability of foreign trading companies and foreign partnerships without legal personality is also the responsibility of their partners.

3 Supplies that are economically closely related and interact with one another in such a way that they must be regarded as an indivisible whole qualify as a unitary eco-
nomic transaction and must be treated according to the character of the aggregate supply.

Ancillary supplies, in particular packaging, are treated for tax purposes in the same way as the main supply.

Art. 20 Attribution of supplies

1 A supply is deemed to be made by the person who appears to the outside world to be the supplier.

   a. can prove that he is acting as an agent and can clearly identify the person represented; and
   b. the existence of an agency relationship is expressly notified to the recipient of the supply or is obvious in the circumstances.

3 If paragraph 1 applies in a triangular relationship, the supply relationship between the person appearing to the outside world and the person actually making the supply is qualified in the same way as the supply relationship between the person acting in relation to the outside world and the person receiving the supply.

b. supplies under Article 21 paragraph 2 numbers 20 and 21 if the good is used or is intended to be used by the recipient exclusively for private residential purposes.

In serial transactions, the direct export extends to all suppliers involved. The good supplied may, prior to export, be processed or finished by agents of the non-taxable customer.

4 The Federal Council may, in order to safeguard competitive neutrality, exempt transport in cross-border air, rail or bus traffic from the tax.

5 The Federal Department of Finance (FDF) shall regulate the conditions by which domestic supplies of goods are exempt from the tax if being exported in tourist traffic and shall specify the evidence required.

Chapter 3  Assessment Basis and Tax Rates

Art. 24  Assessment basis

1 The tax is calculated on the consideration actually received. The consideration includes in particular the reimbursement of all costs, even if they are invoiced separately, and the public law charges payable by the taxable person. Paragraphs 2 and 6 remain reserved.

2 For supplies to closely related persons (Art. 3 let. h), the consideration is deemed to be the amount that would be agreed between independent third parties.

3 For barter transactions, the market value of each supply is deemed to be the consideration for the other supply.

4 For exchange repairs, the consideration covers only the wage for the work carried out.

5 For supplies made in lieu of payment, the consideration is deemed to be the amount which is thereby satisfied.

6 Not included in the assessment basis are:
   a. ticket taxes, immovable property transfer taxes and the VAT itself payable on the supply;
   b. amounts that the taxable person receives from the person receiving the supply as reimbursement of outlays made in his name and for his account, provided they are detailed separately (transitory items);
   c. the portion of the consideration that, on sale of an immovable good, relates to the value of the land;
   d. the cantonal contributions to water, sewage or waste funds included in the price of disposal and supply services, to the extent that these contributions are used by these funds to pay contributions to disposal organisations or waterworks.

Art. 24d  Margin taxation

1 If the person liable to tax has acquired collectors’ items such as works of art, antiques and suchlike, in order to calculate the tax he may deduct the purchase price from selling price provided he has not deducted input tax from the purchase price (margin taxation). If the purchase price is higher than the selling price, the loss may be set off, in that the difference is deducted from taxable turnover.

2 If such collectors’ items are imported by the reseller, the import tax paid may be added to the purchase price.

3 A person is deemed to be a reseller if he acts for his own account or for the account of another on the basis of a purchase or sales commission agreement.

4 The Federal Council shall determine what is deemed to be a collectors’ item.

5 If two or more collectors’ items are purchased for an overall price, the tax may be calculated on the basis of the total difference between the overall selling price and the overall purchase price. The Federal Council shall regulate the requirements.

Art. 25 Tax rates

1 The tax rate is 7.7 per cent (standard rate), subject to paragraphs 2 and 3.

2 The reduced tax rate of 2.5 per cent applies to:

- the supply of the following goods:
  1. tap water,
  2. foodstuffs under the Foodstuffs Act of 20 June 2014, with the exception of alcoholic beverages,
  3. cattle, poultry, fish,
  4. grains,
  5. seeds, planting roots and bulbs, living plants, cuttings, scions and cut flowers and branches, including those used in arrangements bouquets, wreaths, etc.; if invoiced separately, the supply of these goods is also subject to the reduced tax rate, even if it is made in combination with a supply taxable at the standard rate,

  7. fertilisers, pesticides, mulch and other vegetation used as covering material,

53 SR 817.0

c. the supplies under Article 21 paragraph 2 numbers 14–16;
d. agricultural supplies that consist of land cultivation directly related to initial production or cultivation of initial production products connected with the land.

3 For foodstuffs that form part of restaurant supplies, the standard rate applies. A restaurant supply is the serving of foodstuffs provided the taxable person prepares or serves the foodstuffs on the customer’s premises or the taxable person maintains special installations for their consumption on the spot. If foodstuffs, with the exception of alcoholic beverages, are destined to be taken away or for delivery, the reduced tax rate applies provided suitable organisational measures are taken to differentiate these supplies from restaurant supplies; if this is not the case, the standard rate applies. Where foodstuffs, with the exception of alcoholic beverages, are offered in vending machines, the reduced tax rate applies.55

4 The tax on accommodation services is 3.7 per cent (special rate). The special rate applies until 31 December 2020 or, in the event that the time limit in Article 196 number 14 paragraph 1 of the Federal Constitution is extended, until 31 December 2027 at the latest. An accommodation service is the provision of accommodation, including the serving of breakfast, even if it is invoiced separately.56

5 The Federal Council shall specify in greater detail the goods and services designated in paragraph 2; in doing so it shall observe the principle of competitive neutrality.

Chapter 4 Invoicing and VAT Details

Art. 26 Invoice

1 The supplier must on request issue the recipient of the supply with an invoice that satisfies the requirements of paragraphs 2 and 3.

2 The invoice must clearly identify the supplier, the recipient and the nature of the supply and as a rule contain the following elements:

a.57 the name and the location of the supplier in the form in which he presents himself in business transactions, a note that he is registered as a taxable person and the number under which he is entered in the Register of Taxable Persons;

b. the name and location of the recipient of the supply in the form in which he presents himself in business transactions;

c. the date or period of the provision of the supply, in the event that it differs from the invoice date;

d. the nature, object and extent of the supply;

e. the consideration for the supply;

f. the applicable tax rate and the tax amount payable on the consideration; if the consideration includes the tax, details of the applicable tax rate suffice.

3 On invoices issued by automatic tills (receipts), information on the recipient of the supply need not be included provided the consideration disclosed on the receipt does not exceed an amount laid down by the Federal Council.

Art. 27 Incorrect or unauthorised VAT details

1 Any person not entered in the Register of Taxable Persons or who uses the notification procedure according to Article 38 may not include VAT details on invoices.

2 Any person who includes VAT details on an invoice when not entitled to do so, or who details too high a tax for a supply, shall owe the tax detailed unless:

a. the invoice is corrected in accordance with paragraph 4; or

b. he shows probable cause that the Confederation has not suffered a loss of tax; tax is not lost if the recipient of the invoice has not made an input tax deduction or if the input tax claimed has been repaid to the Confederation.

3 The legal consequences of paragraph 2 also apply to credit notes, unless the recipient of the credit note contests in writing the tax detailed without authorisation or the excessive tax amount.

4 An invoice may be subsequently corrected within the period permitted by commercial law by a document requiring acknowledgement of receipt, which refers to and revokes the original invoice.

Chapter 5 Input Tax Deduction

Art. 28 Principle

1 The taxable person may in the course of his business activity, subject to Articles 29 and 33, deduct the following input taxes:

a. the domestic tax invoiced to him;

b. the acquisition tax declared by him (Art. 45–49);

c. the import tax paid or payable by him which has been assessed unconditionally or has been assessed conditionally and fallen due as well as the tax declared by him for the import of goods (Art. 52 and 63).

2 If the taxable person has, in the course of a business activity entitling him to make an input tax deduction, procured agricultural, forestry or market garden products, cattle or milk from non-taxable farmers, foresters, gardeners, cattle dealers or milk collectors, he may deduct as input tax 2.5 per cent of the amount invoiced.

3 Deduction of the input tax under paragraph 1 is permissible if the taxable person proves that he has paid the input tax.

Art. 28a Deduction of notional input tax

1 The taxable person may deduct notional input tax if:
   a. he acquires an individualisable moveable good in the course of a business activity entitling him to make an input tax deduction; and
   b. the VAT on acquisition of the good has not been openly passed on to him.

2 The notional input tax is calculated on the basis of the amount paid by the taxable person. The amount paid is regarded as including the tax at the tax rate applicable at the time of acquisition.

3 No notional input tax may be deducted in respect of goods subject to margin taxation under Article 24a.

Art. 29 Exclusion of the right to input tax deduction

1 There is no right to make an input tax deduction on supplies and the import of goods which are used to make supplies that are exempt without credit from the tax and where the option for their taxation has not been exercised.

1bis An input tax deduction for supplies made abroad is possible to the same extent as if they had been made on Swiss territory and taxation had been opted for under Article 22.

2 Notwithstanding paragraph 1, there is a right to make an input tax deduction in the course of a business activity entitling the taxable person to make an input tax deduction for the purchase, holding and sale of interests and for reorganisations as defined by Article 19 or 61 DFTA.

60 Amended by No II 1 of the O of 8 Nov. 2017 on the Temporary Increase in VAT Rates to Finance the Expansion of the Railway Infrastructure, in force since 1 Jan. 2017 until 31 Dec. 2030 (AS 2017 6305).
64 SR 642.11
3 Interests are participations in the capital of other businesses that are held with the intent of long-term investment and confer significant influence. Participations of at least 10 per cent in the capital are deemed to be an interest.

4 In order to ascertain the deductible input tax, holding companies may base their calculation on the business activity of the businesses held by them that gives rise to the right to make an input tax deduction.65

Art. 30 Mixed use

1 If the taxable person also uses goods, parts thereof or services outside his business activity, or uses the same within his business activity both for supplies entitling the taxable person to make an input tax deduction and for supplies that are excluded from input tax deduction, he must correct the input tax deduction in proportion to their use.

2 If such a pre-supply is predominantly used in the course of the business activity involving supplies entitling the taxable person to make an input tax deduction, the input tax may be deducted in full and corrected at the end of the tax period (Art. 31).

Art. 31 Own use

1 If the conditions for input tax deduction are subsequently not fulfilled (own use), the input tax deduction must be corrected at the point in time at which the conditions are no longer fulfilled. The input tax previously deducted, including the parts corrected as a subsequent input tax deduction, must be repaid.

2 Own use occurs in particular where the taxable person withdraws goods or services permanently or temporarily from his business, provided on procurement or contribution of the whole or of its components he has made an input tax deduction or he has procured the goods or services under the notification procedure according to Article 38 which:

   a. he uses outside his business activity, in particular for private purposes;

   b. he uses for a business activity which does not entitle him to make the input tax deduction under Article 29 paragraph 1;

   c. he hands over without consideration, without there being a business reason; in the case of gifts of up to 500 francs per person and year and of advertising gifts and samples with the aim of realising turnovers taxable or exempt from the tax, a business reason will be presumed automatically;

   d. on the cessation of tax liability are still subject to his right of disposal.

3 If in the period between the receipt of the supply and the non-fulfilment of the conditions for the input tax deduction, the good or service was put to use, the input tax deduction must be corrected in the amount of the fair value of the good or the service. To determine the fair value, the input tax amount is reduced on a straight

line basis for every year that has expired by a fifth for movable goods and for services, and by a twentieth for immovable goods. The accounting treatment is of no significance. The Federal Council may, in justified cases, stipulate departures from the depreciation rules.

4 If a good is used only temporarily outside the business activity or for a business activity not entitling the taxable person to make an input tax deduction, the input tax deduction must be corrected based on the amount of the tax that would be due on the rent that an independent third person would charge therefor.

Art. 32 Subsequent input tax deduction

1 If the conditions for the input tax deduction arise later (subsequent input tax deduction), the input tax deduction may be made in the reporting period in which the conditions arose. The input tax not deducted earlier, including the portion corrected for own use, may be deducted.

2 If the good or the service was put into use in the time between receipt or import of the supply and the occurrence of the conditions for the input tax deduction, the deductible input tax is limited to the fair value of the good or the service. To determine the fair value, the input tax amount is reduced on a straight line basis for every year that has expired by a fifth for movable goods and for services, and by a twentieth for immovable goods. The accounting treatment is of no significance. The Federal Council may, in justified cases, stipulate departures from the depreciation rules.

3 If a good is used only temporarily outside the business activity or for a business activity not entitling the input tax deduction, the input tax deduction must be corrected based on the amount of the tax that would be due on the rent that an independent third person would charge therefor.

Art. 33 Reduction of the input tax deduction

1 Flows of funds that are not deemed to be consideration (Art. 18 para. 2), do not result in a reduction of the input tax deduction, subject to paragraph 2.

2 The taxable person must reduce his input tax deduction proportionately if he receives money under Article 18 paragraph 2 letters a–c.

Chapter 6 Calculation, Constitution and Prescription of the Tax Claim

Section 1 Time of Assessment

Art. 34 Tax period

1 The tax is levied by tax period.

2 The tax period is the calendar year.
3 The FTA shall permit the taxable person on request to use the business year as the tax period.\textsuperscript{66}

\textbf{Art. 35} \hspace{1em} Reporting period

1 Within the tax period, the tax is reported:

a. as a rule quarterly;

b. for reporting using net tax rates (Art. 37 paras. 1 and 2): every six months;

c. if there are regular input tax surpluses: at the request of the taxable person, monthly.

2 On application, the FTA shall permit, in justifiable cases, other reporting periods and shall stipulate the conditions therefor.

\section*{Section 2 \hspace{1em} Amount of the Tax Claim and Notification Procedure}

\textbf{Art. 36} \hspace{1em} Effective reporting method

1 In principle, the effective reporting method must be used.

2 When applying the effective reporting method, the tax claim is calculated as the difference between the domestic tax payable, the acquisition tax (Art. 45) and import tax declared in the transfer procedure (Art. 63) and the input tax credit for the corresponding reporting period.

\textbf{Art. 37} \hspace{1em} Reporting using the net tax rate and the flat tax rate methods

1 If a taxable person does not generate more than 5,005,000 francs turnover from taxable supplies annually and in the same period does not have to pay more than 103,000 francs in tax, calculated at the net tax rate that applies to him, he may report under the net tax rate method.\textsuperscript{67}

2 When using the net tax rate method, the tax claim is determined by multiplying the sum of the taxable considerations, including tax, generated in the reporting period by the net tax rate approved by the FTA.

3 The net tax rates take into account the input tax amounts usual in the relevant branch of the industry. They are fixed by the FTA after consultation with the industry association concerned.\textsuperscript{68}

\textsuperscript{66} Not yet in effect

\textsuperscript{67} Amended by No II 1 of the O of 8 Nov. 2017 on the Temporary Increase in VAT Rates to Finance the Expansion of the Railway Infrastructure, in force since 1 Jan. 2017 until 31 Dec. 2030 (AS 2017 6305).

4 Authorisation to report under the net tax rate method must be requested from the FTA and the method must be used for at least one tax period. If the taxable person elects for the effective reporting method, he may not change to the net tax rate method for at least three years. Changes are possible for the beginning of a tax period.

5 Public authorities and related institutions, in particular private hospitals and schools or licensed transport undertakings and associations and foundations may report using the flat tax rate method. The Federal Council shall regulate the details.

Art. 38 Notification procedure

1 If the tax calculated at the statutory rate on the sales price exceeds 10,000 francs or if the sale is made to a closely related person, the taxable person must fulfil his reporting and tax payment obligation by notification in the following cases:

   a. reorganisations in accordance with Articles 19 or 61 DFTA;
   b. other transfers of all or part of assets to another taxable person in the context of an incorporation, liquidation, reorganisation, sale of business or a legal transaction regulated in the Mergers Act of 3 October 2003.

2 The Federal Council may determine other cases in which the notification procedure must be, or may be, used.

3 The notifications must be made in the course of ordinary reporting.

4 By using the notification procedure, the acquirer accepts the seller’s assessment basis and the level of use entitling to an input tax deduction in respect of the assets transferred.

5 If in the cases mentioned in paragraph 1 the notification procedure was not applied but security is provided for the tax claim, the notification procedure may no longer be ordered.

Section 3 Constitution, Modification and Prescription of the Tax Claim

Art. 39 Form of reporting

1 The tax shall be reported based on the agreed consideration.

2 The FTA shall allow the taxable person on application to report on the basis of the consideration collected.

70 SR 642.11
72 SR 221.301
The form of reporting chosen must be retained for at least one tax period.

The FTA may require the taxable person to report on the basis of the consideration collected if:

a. he receives to a significant extent considerations before he performs the supply or issues an invoice; or

b. there is reasonable suspicion that the taxable person is abusing the procedure of reporting based on agreed considerations to obtain an unlawful benefit for himself or a third party.

Art. 40 Constitution of the tax claim

If reporting is on the basis of agreed considerations, the right to make an input tax deduction is constituted at the time of receipt of the invoice. The turnover tax debt is incurred:

a. on invoicing;

b. with the issue of a partial invoice or with the collection of the partial payment, if the supplies give rise to a series of partial invoices or partial payments;

c. with the collection of the consideration on advance payments for supplies not exempt from the tax and for supplies without invoice.

If reporting is based on collected considerations, the right to make an input tax deduction is constituted at the time of payment. The turnover tax liability is incurred on collection of the consideration.

The right to make an input tax deduction based on the acquisition tax is constituted at the time of reporting the acquisition tax (Art. 47).

The right to make an input tax deduction based on the import tax is constituted at the end of the reporting period in which the tax was established.

Art. 41 Subsequent modification of the turnover tax liability and of the input tax deduction

If the recipient of the supply corrects paid or agreed considerations, the turnover tax liability must be adjusted at the time when the correction is booked or the corrected consideration is collected.

If the consideration expended by the taxable person is corrected, the turnover tax liability must be adjusted at the time when the correction is booked or the corrected consideration is paid.

Art. 42 Prescription of the right to establish the tax

The right to establish a tax claim prescribes five years from the end of the tax period in which the tax claim was established.

This prescriptive period is interrupted by a written declaration requiring confirmation of receipt that is aimed at establishing or correcting the tax claim, a ruling, a
decision on an objection, or a judgment. A corresponding interruption of the prescriptive period may also be achieved by the announcement of an audit under Article 78 paragraph 3 or the commencement of an unannounced audit.

3 If the prescriptive period is interrupted by the FTA or an appeal body, the prescriptive period begins to run again. It then runs for two years.

4 The prescriptive period shall be suspended for as long as proceedings under this Act relating to tax offences are being conducted in respect of the relevant tax period and the person liable for payment has been notified (Art. 104 para. 4).

5 Interruption and suspension are effective towards all persons liable for payment.

6 The right to establish the tax claim in any case prescribes 10 years from the end of the tax period in which the tax claim arose.

Art. 43 Validity of the tax claim

1 The tax claim is made legally binding by:
   a. a ruling that has become legally binding, a decision on an objection that has become legally binding or a judgment that has become legally binding;
   b. the written recognition or payment without reservation of an assessment notice by the taxable person;
   c. the prescription of the right to establish the tax.

2 Until they are legally binding, the returns submitted and paid may be corrected.

Art. 44 Assignment and pledge of the tax claim

1 The taxable person may assign and pledge his tax claim in accordance with the provisions of private law.

2 The rights of the FTA, namely to object and to take measures to secure the tax, are not affected by the assignment or pledge.73

Title 3 Acquisition Tax

Art. 45 Liability for acquisition tax

1 The following are subject to the acquisition tax:
   a. supplies of services by businesses based abroad that are not entered in the Register of Taxable Persons where the place of supply under Article 8 para-

graph 1 is situated on Swiss territory, with the exception of telecommunication or electronic services supplied to non-taxable recipients;

b. the import of data storage media without market value with the services and rights included therein (Art. 52 para. 2);

c. supplies of immovable goods on Swiss territory that are not subject to import tax and which are made by businesses based abroad and which are not entered in the Register of Taxable Persons, with the exception of making such goods available for use or exploitation;

d. the supply of electricity in cables, gas via the natural gas distribution network and district heating by businesses based abroad to persons liable to tax on Swiss territory.

2 The recipient of supplies under paragraph 1 is liable to the tax, provided he:

a. is liable to the tax under Article 10; or

b. procures such supplies for more than 10,000 francs in the calendar year.

Art. 45 Supplies not subject to acquisition tax

Supplies that are exempt from domestic tax without credit under Article 21 or exempt from the domestic tax under Article 23 are not subject to the acquisition tax.

Art. 46 Tax assessment and tax rates

The provisions of Articles 24 and 25 apply to tax assessment and the tax rates.

Art. 47 Tax and reporting period

1 For taxable persons under Article 45 paragraph 2 letter a, the same tax and reporting periods apply as for the domestic tax (Art. 34 and 35).

2 The tax and reporting period for taxable persons under Article 45 paragraph 2 letter b is the calendar year.

Art. 48 Constitution and prescription of the right to establish the acquisition tax debt

1 The acquisition tax debt is incurred:

a. with the payment of the consideration for the supply;
b. in the case of taxable persons under Article 45 paragraph 2 letter a who report on the basis of agreed considerations (Art. 40 para. 1) at the time of receipt of the invoice, and for supplies without invoicing on payment of the consideration.

2 Prescription of the right to establish the tax and legally binding effect are governed by Articles 42 and 43.

**Art. 49** Joint and several liability, tax succession and substitution

For joint and several liability, tax succession and substitution, the provisions of Articles 15–17 apply.

**Title 4 Import Tax**

**Art. 50** Applicable law

For the tax on the import of goods, the customs legislation applies, unless the following provisions provide otherwise.

**Art. 51** Tax liability

1 Any person who is a customs debtor under Article 70 paragraphs 2 and 3 CustA is liable to the tax.

2 Joint and several liability under Article 70 paragraph 3 CustA does not apply to persons who file customs declarations commercially (Art. 109 CustA) if the importer:
   a. is entitled to make an input tax deduction (Art. 28);
   b. has the import tax debt charged via the FCA’s centralised settlement procedure (CSP) account; and
   c. has commissioned the person who files customs declarations commercially to act as his direct agent.

3 The FCA may require the person who issues customs declarations commercially to provide evidence of his authority as an agent.

**Art. 52** Taxable object

1 The taxable object is:

b. the release of goods under Article 17 paragraph 1 bis CustA\textsuperscript{83} for free circulation by persons arriving by air from abroad.\textsuperscript{84}

\textsuperscript{2} If, on the import of data storage media, no market value can be established and if the import is not exempt from tax under Article 53, no import tax is due thereon and the provisions concerning the acquisition tax (Art. 45–49) apply.\textsuperscript{85}

\textsuperscript{3} The provisions of Article 19 apply to a plurality of supplies.

**Art. 53**

f. goods that have been assessed under the export procedure (Art. 61 CustA) and are returned unaltered to the consignor on Swiss territory, provided they have not been exempt from the tax because of export; if the amount of tax is substantial, the tax exemption with credit is granted by reimbursement; the provisions of Article 59 apply by analogy;

i. goods that are imported onto Swiss territory for temporary admission under Articles 9 and 58 CustA or for inward processing under Articles 12 and 59 CustA under the procedure with entitlement to reimbursement, subject to Article 54 paragraph 1 letter d;

j. goods that are temporarily imported onto Swiss territory by a person registered on Swiss territory as a taxable person for job processing under a work and labour contract and which are assessed under the procedure for inward processing as being conditionally due for payment (suspensive procedure) (Art. 12 and 59 CustA);

k. goods that were exported from Swiss territory under Article 9 and 58 CustA for temporary admission or under Articles 13 and 60 CustA for outward job processing under a work and labour contract and are returned to the consignor on Swiss territory, subject to Article 54 paragraph 1 letter e;

l. goods that have been taken abroad for job processing under a work and labour contract under the export procedure (Art. 61 CustA) and are returned to the consignor on Swiss territory, subject to Article 54 paragraph 1 letter f.

2 The Federal Council may exempt from the import tax goods that it declares exempt from customs duties under Article 8 paragraph 2 letter a CustA.

**Art. 54** 

**Assessment basis**

1 The tax is calculated:

a. on the consideration, if the goods are imported in fulfilment of a sales or commission transaction;

b. on the consideration for supplies of goods under work and labour contracts or for work within the meaning of Article 3 letter d number 2 using goods released for free circulation (Art. 48 CustA) and carried out by a person not registered on Swiss territory as a taxable person;

c. on the consideration for work carried out abroad on behalf of artists and sculptors on their own works of art (Art. 3 let. d no. 2), provided the works of art were brought onto Swiss territory by them or on their behalf;

d. on the consideration for the use of goods that were imported for temporary admission under Articles 9 and 58 CustA, provided the amount of tax due on this consideration is substantial; if no or a reduced consideration is demanded for the temporary use, the consideration that would be charged by an independent third party applies;

e. on the consideration for the work carried out abroad on goods (Art. 3 let. d no. 2) that were exported under Articles 9 and 58 CustA for temporary admission or under Articles 13 and 60 CustA for outward job processing under

---

a work and labour contract and are returned to the consignor on Swiss territory;

f. on the consideration for the work carried out abroad on goods (Art. 3 let. d no. 2), provided they have been taken abroad for job processing under a work and labour contract under the export procedure (Art. 61 CustA) and are returned to the consignor on Swiss territory;

g. on the market value in the remaining cases; the market value is what the importer, at the level at which the import is effected, would have to pay to obtain the same goods from an independent supplier in the source land of the goods at the time that the import tax debt is incurred under Article 56 under the conditions of free competition.

2 If the tax calculation is based on the consideration, the consideration paid or payable by the importer or by a third party in his stead under Article 24 applies, subject to Article 18 paragraph 2 letter h. If the consideration is altered subsequently, Article 41 applies by analogy.

3 The assessment basis must include, if not already included:

a. the taxes, customs duties and other charges incurred outside Swiss territory and as a result of the import, with the exception of the Value Added Tax being levied;

b. the costs of the transport or dispatch and all related supplies as far as the destination on Swiss territory to which the goods are to be transported at the time import tax debt under Article 56 is incurred; if this location is unknown, the destination is the place where the trans-shipment takes place on Swiss territory after import tax debt is incurred.

4 If doubt exists as to the correctness of the customs declaration or values are lacking, the FCA may estimate the tax assessment basis at its fair discretion.

5 Price or value information expressed in foreign currency adduced in determining the assessment basis must be converted into Swiss francs at the exchange rate (offer) prevailing on the stock exchange day immediately prior to the incurrence of the import tax debt under Article 56.

Art. 55 Tax rates

1 The tax on the import of goods is 7.7 per cent, subject to paragraph 2.

2 The tax is 2.5 per cent on the import of goods under Article 25 paragraph 2 letter a and a bis. 93

Art. 56  Incurrence, prescription and payment of the import tax debt

1 The import tax debt is incurred at the same time as the customs debt (Art. 69 CustA\(^94\)).

2 Taxable persons under Article 51 who settle the import tax debt via the CSP are allowed a period of 60 days after issue of the invoice to make payment; exceptions are imports made by tourists, which must be reported orally for customs assessment.

3 In relation to security, facilities may be granted if collection of the tax is not endangered as a result.

4 The import tax debt prescribes at the same time as the customs debt (Art. 75 CustA). The prescriptive period is suspended for as long as criminal proceedings in respect of tax offences under this Act are in process and the person liable for payment has been informed (Art. 104 para. 4).

5 If the import tax debt changes as a result of subsequent adjustment of the consideration, in particular as a result of revision of the contract or because of price adjustments between related businesses based on recognised guidelines, the tax that has been assessed too low must be notified to the FCA within 30 days of the adjustment. The notification and the adjustment of the tax assessment may be dispensed with if the additional tax payable could be deducted as input tax under Article 28.

Art. 57  Interest on late payment

1 If the import tax debt is not paid on time, interest on the late payment is due.

2 The liability for interest on late payment begins:
   a. where payment is made via the CSP: on expiry of the payment terms granted;
   b. where the tax is levied on the consideration under Article 54 paragraph 1 letter d: on expiry of the payment terms granted;
   c. where an improper reimbursement of taxes is reclaimed: on the date of reimbursement;
   d. in all other cases: on the incurrence of the import tax debt under Article 56.

3 The liability for interest on late payment also continues during appeal proceedings and instalment payments.

Art. 58  Exceptions to liability for interest on late payment

Interest on late payment is not imposed if:
   a. the import tax debt has been secured by a cash deposit;

\(^94\) SR 631.0
b. goods released for free circulation (Art. 48 CustA) are first provisionally assessed (Art. 39 CustA) and at the time of acceptance of the customs declaration, the importer was registered on Swiss territory as a taxable person;

c. goods conditionally assessed (Art. 49, 51 para. 2 letter b, 58 and 59 CustA) on conclusion of the customs procedure
   1. are re-exported, or
   2. are placed under another customs procedure (Art. 47 CustA);

ebis in the case of goods conditionally assessed, the importer was registered on Swiss territory as a taxable person at the time of acceptance of the customs declaration;

d. the goods must be declared periodically for the customs assessment procedure (Art. 42 para. 1 letter c CustA) or are subsequently assessed under a simplified customs assessment procedure (Art. 42 para. 2 CustA) and the importer was registered on Swiss territory as a taxable person at the time of the import.

Art. 59 Right to refund of the tax and prescription

1 Where excess taxes have been imposed or taxes are not due, there is a right to a refund.

2 Not refunded are excess taxes imposed, taxes not due and taxes no longer due as a result of a subsequent assessment of the goods under Articles 34 and 51 paragraph 3 CustA or because of their re-export under Articles 49 paragraph 4, 51 paragraph 3, 58 paragraph 3 and 59 paragraph 4 CustA if the importer is registered on Swiss territory as a taxable person and may deduct the tax payable or paid to the FCA as input tax under Article 28.

3 The right prescribes five years from the end of the calendar year in which it was constituted.

4 The prescriptive period is interrupted if the right is enforced against the FCA.

5 It is suspended for as long as appeal proceedings in respect of the enforcement of the right are pending.

6 The right to a refund of excess taxes imposed or taxes not due in any event prescribes 15 years from the end of the calendar year in which it was constituted.
Art. 60  Refund because of re-export

1 The tax imposed on import shall be refunded on application if the conditions for an input tax deduction under Article 28 are not met and:
   a. the goods are re-exported unaltered without prior handover to a third party as part of a supply of goods on Swiss territory and without having been used earlier; or
   b. the goods were used on Swiss territory, but are re-exported as a result of cancellation of the supply of goods; in this case the refund is reduced by the amount that represents the tax on the consideration for use of the goods or on the loss of value caused by use of the goods and on the non-refunded import customs duties and duties based on non-customs-based federal laws.

2 The tax is refunded only if:
   a. the re-export takes place within five years of the end of the calendar year in which the tax was imposed; and
   b. the goods exported are proven to be identical to those imported earlier.

3 The refund may in a specific case be made dependent on proper declaration in the import state.

4 Applications for a refund must be submitted on declaration for the export procedure. Subsequent refund applications may be considered if they are submitted in writing to the FCA within 60 days of issue of the export document with which the goods were assessed under the export procedure (Art. 61 CustA\textsuperscript{100}).

Art. 61  Refund interest

1 Refund interest shall be paid in respect of the period that elapses before the refund is paid:
   a. in the case of refunds of excess tax or tax not due under Article 59: from the 61st day after receipt of the written claim by the FCA;
   b. in respect of refunds of the tax as a result of re-export under Article 60: from the 61st day after receipt of the application by the FCA;
   c. in respect of procedures with conditional payment liability (Art. 49, 51, 58 and 59 CustA\textsuperscript{101}): from the 61st day after due conclusion of the procedure.

2 The interest-free period of 60 days does not begin to run until:
   a. all documents necessary to establish the facts and evaluate the request have been received by the FCA;
   b. the objection to the assessment decision satisfies the requirements of Article 52 of the Federal Act of 20 December 1968\textsuperscript{102} on Administrative Procedure (APA);

\textsuperscript{100} SR 631.0
\textsuperscript{101} SR 631.0
c. the bases for calculating the tax on the consideration under Article 54 paragraph 1 letter d are known to the FCA.

3 Refund interest is not paid on a tax remission under Article 64.

Art. 62 Competence and procedure

1 The import tax is levied by the FCA. It issues the necessary orders and rulings.

2 The executive bodies of the FCA are authorised to undertake all the investigations that are necessary to examine the facts significant to the assessment of the tax. Articles 68–70, 73–75 and 79 apply by analogy. The FCA may, by agreement with the FTA, transfer investigations relating to persons registered on Swiss territory as taxable persons to the FTA.

Art. 63 Transfer of the tax payment

1 Taxable importers registered with the FTA as taxable persons that report using the effective method may, instead of paying the tax payable on the import of goods to the FCA, declare it in their periodic tax return to the FTA (transfer procedure), provided they regularly import and export goods and significant input tax surpluses result.

2 If the goods imported under the transfer procedure are further processed or finished on Swiss territory after the import, the FTA may authorise taxable persons to supply the processed or finished goods to other taxable persons without calculating the tax.

3 The Federal Council stipulates the details of the transfer procedure.

Art. 64 Tax remission

1 A remission may be granted for all or part of the import tax, if:

a. goods held in the custody of the FCA or made subject to a transit procedure (Art. 49 CustA103), a customs warehousing procedure (Art. 50–57 CustA), a temporary admission procedure (Art. 58 CustA) or a procedure of inward processing (Art. 59 CustA) are destroyed in whole or in part by chance, act of God or with official approval;

b. goods released for free circulation by official decree are destroyed in whole or in part or are again exported from Swiss territory;

c. a subsequent claim in terms of Article 85 CustA would, in view of special circumstances, constitute an unreasonable burden on the taxable person under Article 51;

d. the person responsible for the customs declaration (e.g. the forwarding agent) cannot recover the tax from the importer because of the latter's insolvency, and the importer was at the time of the acceptance of the customs declaration insolvent.

declaration registered as a taxable person on Swiss territory; insolvency of
the importer must be assumed if repayment of the debt due to the person re-
 sponsible for the customs declaration appears to be seriously at risk.

2 The Directorate General of Customs decides on the tax remission on written appli-
cation supported by the necessary evidence.

3 The period for submission of an application is:
   a. on assessment with unconditional import tax debt: one year after the issue of
      the import document with which the import tax was assessed;
   b. on assessment with conditional import tax debt: one year after conclusion of
      the customs procedure chosen.

Title 5  Procedural Law for Domestic and Acquisition Tax
Chapter 1  General Procedural Provisions

Art. 65
1 The FTA is responsible for the imposition and the collection of the domestic and
the acquisition tax.

2 In order to ensure that the tax is imposed and collected in accordance with the law,
the FTA shall issue all the necessary instructions, unless the issue of such is express-
ly reserved to another authority.

3 It publishes without delay all good practice regulations that are not exclusively of
an internal administrative nature.

4 All administrative acts must be carried out expeditiously.

5 The taxable person may be burdened by the tax imposition only to the extent this is
absolutely necessary for enforcement of this Act.

Chapter 2  Rights and Obligations of the Taxable Person

Art. 66  Registration and de-registration as a taxable person

1 Persons who are taxable under Article 10 must register with the FTA of their own
accord in writing within 30 days of the commencement of their tax liability. The
Administration shall issue them with a non-transferable number in accordance with
the requirements of the Federal Act of 18 June 2010\textsuperscript{104} on the Business Identifica-
tion Number, which is registered.\textsuperscript{105}

\textsuperscript{104} SR 431.03
\textsuperscript{105} Second sentence amended by Annex No. 2 of the Federal Act of 18 June 2010 on the
Business Identification Number, in force since 1 Jan. 2011 (AS 2010 4989;
BBl 2009 7855).
2 If tax liability ends in accordance with Article 14 paragraph 2, the taxable person must de-register with the FTA in writing within 30 days of the end of the business activity, and at the latest on conclusion of the liquidation proceedings.

3 Any person who becomes taxable solely because of the acquisition tax (Art. 45 para. 2) must register with the FTA in writing within 60 days of the end of the calendar year in which he is liable for tax and at the same time declare the supplies procured.

Art. 67  Tax representation

1 Taxable persons without a domicile, registered office or permanent establishment on Swiss territory must appoint a representative to perform their procedural obligations who has his domicile, registered office or permanent establishment on Swiss territory.

2 In the case of group taxation (Art. 13), the VAT group must appoint a representative to fulfil their procedural obligations who has his domicile or place of business in Switzerland.

3 The appointment of a representative under paragraphs 1 and 2 does not constitute a permanent establishment in accordance with the direct tax provisions.

Art. 68  Obligation to provide information

1 The taxable person must provide the FTA in good faith with information on all matters that to the best of his knowledge and belief could be of significance to tax liability or for assessment of the tax, and must submit the documents required.

2 Professional confidentiality as protected by law is reserved. Persons subject to professional confidentiality are obliged to open their books or records, but may conceal the names and addresses of their clients or replace them with codes, but not their domicile, registered office or permanent establishment. In cases of doubt, at the request of the FTA or of the taxable person, the president of the competent chamber of the Federal Administrative Court shall appoint neutral experts as controlling bodies.

Art. 69  Right to receive information

In response to a written enquiry made by the taxable person about the VAT consequences of a specific set of circumstances, the FTA shall provide information within a reasonable period. The information is legally binding on the enquiring taxable person and the FTA; it may not be used in relation to any other set of circumstances.

Art. 70  Accounting and retention of records

1 The taxable person must keep his books of account and records in accordance with the principles of commercial law. The FTA may in exceptional cases impose more extensive recording obligations if this is essential for proper imposition of the VAT.
2 The taxable person must retain in a proper manner his books of account, receipts, business documents and other records until the right to establish the tax claim has prescribed (Art. 42 para. 6). Articles 958f of the Code of Obligations\textsuperscript{106} applies.\textsuperscript{107}

3 Business documents that are required in connection with the calculation of a subsequent input tax deduction and own use of immovable goods must be retained for 20 years (Art. 31 para. 3 and 32 para. 2).

4 The Federal Council shall stipulate the conditions under which receipts that are necessary under this Act for enforcement of the tax may be transmitted and retained in paperless form.

\textbf{Art. 71}  
\textbf{Filing of the return}

1 The taxable person must of his own accord file a return in respect of the tax claim in the prescribed form to the FTA within 60 days of the end of the reporting period.

2 If the tax liability ends, the period runs from this date.

\textbf{Art. 72}  
\textbf{Correction of errors in the return}

1 If the taxable person discovers errors in his tax returns in the course of drawing up his annual accounts, he must correct them at the latest in the return for the reporting period in which the 180th day after the end of the relevant business year falls.

2 The taxable person is obliged to retrospectively correct recognised errors in returns relating to past tax periods unless the tax claims for these tax periods have become legally binding or have prescribed.

3 The retrospective corrections of the returns must be notified in the form specified by the FTA.

4 In the case of system-based errors that are difficult to ascertain, the FTA may grant the taxable person facilities under Article 80.

\textbf{Chapter 3}  
\textbf{Obligation of Third Parties to provide Information}

\textbf{Art. 73}  

1 Third parties obliged to provide information under paragraph 2 must at the request of the FTA and free of charge:

a. provide all information that is necessary to establish tax liability or to calculate the tax claim against a taxable person;

\textsuperscript{106} SR 220
b. permit the inspection of books of account, receipts, business documents and other records if the required information is not available from the taxable person.

2 A third party obliged to provide information is a person who:
   a. could be a taxable person;
   b. is liable for the tax in addition to or instead of the taxable person;
   c. has received or supplied goods or services;
   d. holds a qualifying interest in a company subject to group taxation.

3 Professional confidentiality as protected by law is reserved.

Chapter 4 Rights and Obligations of the Authorities

Section 1 Confidentiality and Administrative Assistance\textsuperscript{108}

\textbf{Art. 74} Confidentiality

1 Any person entrusted with or consulted on the execution of this Act must maintain confidentiality about the information of which he has become aware in the performance of his duties towards other authorities and private persons and must not grant unauthorised persons access to official documents.

2 There is no duty of confidentiality:
   a. when providing administrative assistance under Article 75 and in fulfilling an obligation to report criminal acts;
   b. towards executive bodies of the judiciary or administration if the authority entrusted with the implementation of this Act has been authorised by the Federal Department of Finance to provide information;
   c. in a particular case towards the debt enforcement and bankruptcy authorities or in the reporting of debt enforcement or bankruptcy offences to the disadvantage of the FTA;
   d.\textsuperscript{109} for the following information entered in the Register of Taxable Persons: the number under which he is registered, address and business activity, and beginning and end of tax liability.

\textbf{Art. 75} Administrative assistance

1 The tax authorities of the Confederation, cantons, districts, administrative areas and communes shall support each other mutually in fulfilling their tasks; they must

prepare the appropriate reports, provide the information required and permit the
inspection of files free of charge.

2 The administrative authorities of the Confederation and the autonomous federal
organisations and establishments and all other authorities of the cantons, districts,
administrative areas and communes not mentioned in paragraph 1 are obliged to
provide information to the FTA if the information requested may be of significance
for the enforcement of this Act and for the collection of the tax under this Act or for
collecting the business fee under the Federal Act of 24 March 2006\textsuperscript{110} on Radio and
Television; the information must be provided free of charge. On request, documents
must be forwarded to the FTA free of charge.\textsuperscript{111}

3 Information may be refused only if its provision conflicts with essential public
interests or the information would significantly hinder the authority contacted in the
performance of its task. Postal and telecommunications confidentiality must be
observed.

4 Disputes relating to the obligation of administrative authorities of the Confedera-
tion to provide information are decided by the Federal Council. Disputes relating to
the obligation of authorities of the cantons, districts, administrative areas and com-
munes to provide information are decided by the Federal Supreme Court (Art. 120
of the Federal Supreme Court Act of 17 June 2005\textsuperscript{112}) if the cantonal government
has refused the request for information.

5 The organisations entrusted with public law tasks have, in the context of these
tasks, the same obligation to provide information as the authorities; paragraph 4
applies by analogy.

**Art. 75a\textsuperscript{113}** International administrative assistance

1 Within the scope of its remit, the FTA may, on their request, provide
administrative assistance to foreign authorities in performing their tasks, specifically
in ensuring correct application of VAT law and in preventing, exposing and
prosecuting breaches of VAT law, insofar as this is provided for in an international
agreement.

2 It provides administrative assistance by analogous application of Article 115a to
115i CustA\textsuperscript{114}.

Art. 76a\textsuperscript{118}  Information system

2 The FTA may disclose data under Article 76a paragraph 3 or make it accessible online to the persons in the FCA entrusted with the imposition and collection of VAT or with the conduct of criminal and administrative proceedings, provided this is necessary for them to fulfil their duties.

\textbf{Art. 76c\footnote{Inserted by No I of the FA of 30 Sept. 2016, in force since 1 Jan. 2018 (AS 2017 3575; BBl 2015 2615).}} Safeguarding data and documents

Section 3 Securing the Correct Tax Payment\textsuperscript{124}

Art. 77 Review

The FTA shall review the fulfilment of the obligation to register as a taxable person and the tax returns and payments.

Art. 78 Audit

1 The FTA may perform audits of taxable persons to the extent this is necessary to clarify the circumstances. For this purpose, these persons must grant the FTA access to their accounts and related receipts. The same applies to third parties obliged to provide information under Article 73 paragraph 2.

2 The demand for and review of comprehensive documentation by the FTA is also regarded as an audit.

3 Written notice must be given of an audit. In justifiable and exceptional cases, notification of an audit may be waived.

4 The taxable person may make a justified request for an audit to be carried out. The audit must be performed within two years.

5 The audit must be concluded within 360 days of notification with an assessment notice; it states the amount of the tax claim in the period audited.

6 The findings relating to third parties made during an audit under paragraphs 1 to 4 of a bank or savings institution as defined in the Banking Act of 8 November 1934\textsuperscript{125}, of the Swiss National Bank, of a mortgage bond clearing house, of a securities dealer as defined in the Stock Exchange Act of 24 March 1995\textsuperscript{126}, or of a finan-

Professional secrecy under the Banking Act, the Stock Exchange Act and the Financial Market Infrastructure Act must be observed.\textsuperscript{128}

**Art. 79** Assessment according to best judgement

1 If no records or only incomplete records are available or if the results reported obviously do not reflect the true circumstances, the FTA shall make an assessment according to its best judgement of the tax claim.

2 The tax claim is established with an assessment notice.

**Art. 80** Simplifications

If the exact establishment of individual facts important to the assessment of the tax would cause excessive inconvenience to the taxable person, the FTA shall grant facilities and allow the tax to be determined approximately, provided that as a result there is no significant loss of or increase in the tax, no material distortion of the competitive situation and no excessive complication of the tax return for other taxable persons and the tax audit.

### Chapter 5  Ruling and Appeal Procedures

**Art. 81** Principles

1 The provisions of the APA\textsuperscript{129} apply. Article 2 paragraph 1 APA does not apply to the VAT procedure.

2 The authorities shall establish the legally relevant circumstances ex officio.

3 The principle of the free consideration of evidence applies. It is not permissible to make proof dependent on the production of specific evidence.

**Art. 82** FTA rulings

1 The FTA shall issue ex officio or on application of the taxable person all rulings necessary for the imposition of the tax, in particular if:

   a. the existence or scale of the tax liability is disputed;

   b. the registration or de-registration in the Register of Taxable Persons is disputed;

\textsuperscript{127}  SR 958.1
\textsuperscript{129} SR 172.021
c. the existence or amount of the tax claim, of joint liability or of the entitlement to a refund of taxes is disputed;

d. the taxable person or persons jointly liable fail to pay the tax;

e. other obligations arising under this Act or from ordinances based on it are not recognised or not fulfilled;

f. in a specific case and as a precautionary measure it is ordered or appears necessary to establish the tax liability, the tax claim, the principles for the assessment of the tax, the applicable tax rate or joint liability.

2 Written notice of rulings shall be given to the taxable person. Notice must include instructions on the right of appeal and an appropriate statement of the grounds for the ruling.

**Art. 83** Objection

1 Rulings of the FTA may be contested by filing an objection within 30 days of notification.

2 The objection must be filed with the FTA in writing. It must contain the petition, the grounds for the objection citing the evidence and the signature of the appellant or of his representative. The representative must identify himself by written power of attorney. The evidence must be described in the letter of objection and enclosed with it.

3 If the objection does not satisfy these requirements or if the petition or its grounds lack the necessary clarity, the FTA shall grant the objecting party a short period to revise the same. It shall combine this additional period with the warning that if the period expires unused, a decision will be made based on the files or, if the petition, grounds, signature or power of attorney is not provided, that the objection will not be considered.

4 If the objection is raised against a properly justified ruling of the FTA, on application or with the consent of the objecting party it must be forwarded as an appeal to the Federal Administrative Court.

5 The objection procedure must be continued despite withdrawal of the objection if there are indications that the contested ruling does not comply with the applicable provisions of the law.

**Art. 84** Costs and compensation

1 In general, no costs are charged in ruling and objection procedures. No legal costs are awarded.

2 Regardless of the outcome of the proceedings, procedural costs may be imposed on the person or authority that culpably caused them.
Art. 85 Review, explanation and correction

The review, explanation and correction of assessment notices, rulings and objection decisions of the FTA are governed by Articles 66–69 APA\textsuperscript{130}.

Chapter 6 Collection

Art. 86 Payment of the tax

1 The taxable person must settle the tax claim that arose in the reporting period within 60 days of the end of that period.

2 If the taxable person makes no payment or a payment that is obviously insufficient, the FTA, after issuing a reminder, shall seek to enforce its claim for the tax amount provisionally payable for the reporting period in question. If no return has been filed for the taxable person or the return is obviously inadequate, the FTA shall first make an assessment according to its best judgement of the tax amount provisionally payable.

3 By filing his opposition, the taxable person instigates the procedure to have his opposition set aside. The FTA is responsible for setting aside the opposition in the ruling and appeal procedure.

4 The ruling on the opposition may be contested by filing an objection with the FTA within 10 days of it being issued. The objection decision is final, subject to paragraph 5.

5 If the tax amount provisionally payable that is the subject of the enforcement proceedings is the result of an assessment made by the FTA according to its best judgement, an appeal may be filed in the Federal Administrative Court against the objection decision. The appeal has no suspensive effect, unless the court so orders on justified application. The Federal Administrative Court makes the final decision.

6 Article 85\textit{a} of the Federal Act of 11 April 1889\textsuperscript{131} on Debt Collection and Bankruptcy (DCBA) does not apply.

7 The collection of a tax amount under paragraph 2 does not affect the final tax claim under Articles 72, 78 and 82 from being established. If the tax claim cannot be established due to a failure of the taxable person to act, in particular because he fails to correct errors under Article 72 or to request a ruling under Article 82, on the prescription of the right to establish the tax, the tax amounts established by the FTA under paragraph 2 become the tax claim.\textsuperscript{132}

8 Instead of a payment of the tax amount, the taxable person may provide security in accordance with to Article 93 paragraph 7.

\textsuperscript{130} SR 172.021
\textsuperscript{131} SR 281.1
Immediately after receipt of the payment or the security, the FTA shall withdraw its debt enforcement claim.

**Art. 87** Interest on late payment

1 In the event of late payment, interest is payable without reminder.

2 Interest on late payment is not payable on an additional charge if it is the result of an error which, if it had been correctly processed, would not have led to loss of tax for the Confederation.

**Art. 88** Refunds to the taxable person

1 If the tax return discloses a surplus in favour of the taxable person, it is refunded.

2 The foregoing paragraph does not apply in the event of:
   a. the set-off of this surplus against import tax liabilities, even if they are not yet due;
   b. the use of the surplus as security for tax under Article 94 paragraph 1;
   c. the use of the surplus for set-off among federal agencies.

3 The taxable person may reclaim taxes paid but not due if the tax claim is not yet legally binding.\(^\text{133}\)

4 If the surplus under paragraph 1 or the refund under paragraph 3 is paid out later than 60 days after receipt of the tax return or of the written claim to the entitlement by the FTA, interest shall be paid on the amount due for the period from the 61st day until payment or refund.

**Art. 89** Debt collection

1 If the claim for tax, interest, costs and fines is not satisfied, the FTA shall instigate debt collection proceedings and take whatever civil and enforcement measures that serve the purpose.

2 If the tax claim is not yet legally binding and if it is disputed, the FTA shall issue a ruling. Until a legally binding ruling is issued, the final ranking of creditors is suspended.\(^\text{134}\)

3 By filing opposition to the enforcement proceedings, the taxable person instigates the procedure for to have his opposition set aside. The FTA is responsible for setting aside the opposition.

The FTA must register the tax claim in the public inventories or on public notices to creditors.\textsuperscript{136}

The taxes incurred in the context of enforcement proceedings represent exploitation costs.

The FTA may in justified cases waive the collection of the tax if the enforcement proceedings are not expected to be successful.

\textbf{Art. 90} Payment facilities

1 If payment of the tax, interest and costs within the prescribed period causes the taxable person significant hardship, the FTA and the taxable person may agree on an extension of the payment period or on instalment payments.

2 Payment facilities may be made subject to the provision of appropriate security.

3 Payment facilities lapse if the requirements lapse or if the conditions to which they are tied are not fulfilled.

4 The submission of an application for an agreement on payment facilities does not lead to the suspension of enforcement proceedings.

\textbf{Art. 91} Prescription of the right to collect tax

1 The right to enforce the tax claim, interest and costs prescribes five years from the time when the corresponding claim becomes legally binding.

2 The prescriptive period is suspended as long as the taxable person cannot be proceeded against in Switzerland.

3 The prescriptive period is interrupted by every action requesting payment and every moratorium by the FTA and by every assertion of the claim by the taxable person.

4 Interruption and suspension are effective towards all persons liable for payment.

5 Prescription applies in any event ten years after the end of the year in which the claim became legally binding.

6 If a certificate of shortfall is issued in respect of a tax claim, the prescriptive period for collection is governed by the provisions of the DCBA\textsuperscript{137}.

\textbf{Art. 92} Tax remission

1 The FTA may abate bindingly assessed taxes in whole or in part if the taxable person:

\textsuperscript{136} Amended by No I of the FA of 30 Sept. 2016, in force since 1 Jan. 2018 (AS \textbf{2017} 3575; BBl \textbf{2015} 2615).

\textsuperscript{137} SR \textbf{281.1}
a. has for an excusable reason not invoiced and collected the tax, a retroactive transfer is not possible or reasonable and payment of the tax would result in serious hardship;

b. owes the tax simply as a result of not observing formal regulations or of processing errors and it is obvious or the taxable person proves that there is no loss of tax for the Confederation; or

c. for an excusable reason could not fulfil his assessment obligations, but can prove or show credibly in retrospect that the assessment according to its best judgement undertaken by the FTA is too high; in this case tax abatement is possible only up to the amount over-assessed.

2 The FTA may also consent to a tax abatement or waive security for its claim in composition proceedings.

3 The request for abatement must be justified in writing and be submitted to the FTA together with the necessary evidence. There is no right of objection to the ruling of the FTA. An appeal may be made to the Federal Administrative Court.

4 The submission of a request for a tax abatement does not lead to the suspension of enforcement proceedings for legally assessed taxes.

5 The tax abatement procedure is free of cost. However, costs may be imposed in full or in part on the person submitting the request if he has submitted an obviously unjustified request.

Chapter 7 Security for the Tax

Art. 93 Security

1 The FTA may require security for taxes, interest and costs, even if they are not bindingly assessed or due, if:

a. their payment on time appears to be at risk;

b. the taxable person makes preparations to give up his domicile, registered office or permanent establishment in Switzerland or to be deleted from the Swiss Commercial Register;

c. the taxable person is in arrears with his payment;

d. the taxable person takes over all or part of a business over which bankruptcy proceedings have been commenced;

e. the taxable person submits returns that are obviously too low.

2 If the taxable person waives exemption from tax liability (Art. 11) or opts for the taxation of supplies exempt without credit (Art. 22), the FTA may demand from the person security pursuant to paragraph 7.

3 The ruling requiring security must cite the legal reason for the security, the amount to be secured and the office that accepts the security; it qualifies as a freezing order in terms of Article 274 DCBA\(^{139}\). There is no right of objection against the ruling requiring security.

4 An appeal may be filed against the ruling before the Federal Administrative Court.

5 Appeals against rulings requiring security do not have suspensive effect.

6 The service of a ruling concerning the tax claim qualifies as the raising of an action under Article 279 DCBA. The period for instituting debt collection procedures begins to run when the ruling concerning the tax claim becomes legally binding.

7 Security must be provided by cash deposit, solvent guarantees, bank guarantees, mortgage certificates, life insurance policies with surrender value, listed Swiss franc bonds issued by Swiss borrowers or cash bonds issued by Swiss banks.

**Art. 94** Other collateral measures

1 A surplus on the tax return in favour of the taxable person may:
   a. be set off against debts from prior periods;
   b. be credited for set-off against anticipated amounts payable for subsequent periods if the taxable person is in arrears with the payment of tax or for other reasons it appears probable that the tax claim is at risk; the amount credited carries interest from the 61\(^{st}\) day after receipt by the FTA of the tax return until the date of the set-off at the rate that applies to refund interest; or
   c. be set off against security required by the FTA.

2 In the case of taxable persons without a domicile, registered office or permanent establishment in Switzerland, the FTA may also require security for anticipated debts under Article 93 paragraph 7.

3 If payments are repeatedly in arrears, the FTA may require the taxable person to make monthly or half-monthly advance payments.

**Art. 95** Deletion from the Commercial Register

A legal entity or a permanent establishment of a foreign business may not be deleted from the Swiss Commercial Register until the FTA has notified the administration competent for keeping the register that the tax due has been paid or security has been provided.
Title 6  Criminal Provisions

Art. 96  Tax evasion

1 Any person who wilfully or negligently reduces the tax claim to the detriment of the state:
   a. by not declaring in a tax period all receipts, declaring receipts from supplies exempt from the tax that are too high, not declaring all supplies subject to acquisition tax or by declaring expenses entitling to an input tax deduction that are too high;
   b. by obtaining an incorrect refund; or
   c. by obtaining an unjustified tax abatement.

shall be liable to a fine not exceeding 400,000 francs.

2 The fine shall not exceed 800,000 francs if the tax evaded in the cases mentioned in paragraph 1 is transferred in a form that entitles the taxable person to make an input tax deduction.

3 Any person who reduces the tax due to the state by declaring the tax factors relevant for establishment of the tax truthfully, but qualifying them incorrectly for tax purposes, in that he wilfully fails to properly apply clear legal provisions, instructions from the authorities or published practice rules and does not inform the authorities thereof in writing in advance shall be liable to a fine of up to 200,000 francs. If the offence is committed through negligence, the fine is up to 20,000 francs.

4 Any person who reduces the tax claim to the detriment of the state:
   a. by wilfully or negligently failing to declare or incorrectly declaring or concealing goods on import;
   b. by wilfully failing to provide information or providing false or incomplete information in response to an enquiry during an official audit or administrative procedure that has as its object the establishment of the tax claim or tax abatement.

shall be liable to a fine not exceeding 800,000 francs.

5 An attempt to commit tax evasion is also an offence.

6 If the tax advantage is obtained on the basis of an incorrect return, the offence of tax evasion is not subject to a penalty until the period for correction of errors in the return has expired (Art. 72 para. 1) and the error has not been corrected.

Art. 97  Determination of the penalty and aggravated tax evasion

1 The fine is determined by applying Article 106 paragraph 3 of the Swiss Criminal Code (SCC)\(^{140}\); Article 34 SCC may be applied by analogy. If the tax advantage

\(^{140}\) SR 311.0
obtained by the act is greater than the threatened penalty and the offence was com-
mittted wilfully, the fine may be increased to a maximum of two times the tax ad-
vantage.

2 In aggravating circumstances, the maximum fine that the offence carries may be
increased by half. At the same time, a custodial sentence not exceeding two years
may be imposed. Aggravating circumstances are:
  a. soliciting one or more persons to commit an offence against VAT law;
  b. committing offences against VAT law for commercial gain.

Art. 98 Infringement of procedural obligations
Any person who wilfully or negligently:
  a. does not register as a taxable person;
  b. despite being issued with a written demand, does not submit a tax return on
time;
  c. does not declare the tax in the right period;
  d. does not provide security properly;
  e. does not keep, complete, retain or present books of account, vouchers, busi-
ness documents and other records properly;
  f. despite being issued with a written demand, does not give or gives false in-
formation, or does not declare or declares incorrectly the data and goods
necessary for the tax imposition or for review of the tax liability;
  g. details on invoices VAT that is not payabl or is not payable in the amount
stated;
  h. by quoting a register number, falsely claims to be entered in the Register of
Taxable Persons;
  i. despite being warned, obstructs, hinders or makes impossible the proper per-
formance of an audit;
shall be liable to a fine unless the offence carries a higher penalty under another
provision.

Art. 99 Receiving untaxed goods
Any person who purchases, receives as a gift, receives as a pledge or otherwise takes
possession of, conceals, helps to sell or brings into circulation goods, in respect of
which he knows or must assume that the import tax payable has been wilfully evad-
ed shall be liable to the same penalty as applies to the principle offender.
Art. 100  Violations in business operations
If a fine not exceeding 100,000 francs would be applicable and if the tracing of the offenders under Article 6 ACLA\textsuperscript{141} would require investigations the cost of which would be disproportionate to the penalty otherwise forfeited, the authority may dispense with pursuing the offenders and instead order the business (Art. 7 ACLA) to pay the fine.

Art. 101  Concurrent offences
1 Articles 7, 9, 11 and 12 paragraphs 4 and 13 ACLA\textsuperscript{142} do not apply.
2 The imposition of a penalty under Article 98 letter a of this Act does not preclude the imposition of a penalty under Articles 96 and 97.
3 The imposition of a penalty under Article 14 ACLA precludes the imposition of an additional penalty for the same criminal act under Articles 96 and 97 of this Act.
4 If an act meets the criterion of evasion of import tax or of receipt of untaxed goods as well as offence to be pursued by the FCA against other federal tax decrees, the penalty for the most serious violation shall be imposed; it may be increased appropriately.
5 If the perpetrator through one or more acts fulfils the requirements for the imposition of two or more penalties that fall within the area of competence of the FTA, the penalty for the most serious violation shall be imposed; it may be increased appropriately.

Art. 102  Self-reporting
1 If the taxable person reports himself for an offence under this Act before it comes to the attention of the competent authority, he will not be prosecuted if:
   a. the person assists the authority in a reasonable manner in establishing the tax payable or refundable; and
   b. the person makes a serious effort to pay the tax due or refundable.
2 If a non-taxable person who has committed an offence under this Act or has participated in such an offence reports the offence, he will not be prosecuted.
3 A legal entity reports itself through its executive bodies or representatives. Joint and several liability under Article 12 paragraph 3 ACLA\textsuperscript{143} of the executive bodies or of the representatives does not apply and no prosecution will be brought.
4 A correction of the return under Article 72 paragraph 2 qualifies as self-reporting.

\textsuperscript{142} SR 313.0
\textsuperscript{143} SR 313.0
Art. 103 Prosecution

1 With the exception of Articles 63 paragraphs 1 and 2, 69 paragraph 2, 73 paragraph 1 last sentence and 77 paragraph 4, the ACLA\textsuperscript{144} governs prosecution.

2 Prosecution is the responsibility of the FTA for domestic tax and acquisition tax, and of the FCA for import tax.

3 In closely related criminal cases in which both the FTA and the FCA have jurisdiction, the FTA may by agreement with the FCA decide to join the prosecutions under one of the two authorities.

4 Prosecution may be dispensed with if the level of culpability and the consequences of the crime are negligible (Art. 52 SCC\textsuperscript{145}). In these cases a non-intervention or no-proceedings ruling is issued.

5 If the competent authority must also investigate or judge other offences to which the ACLA applies, paragraph 1 applies to all offences.

Art. 104 Procedural guarantees

1 The accused has the right to fair criminal proceedings in accordance with the Federal Constitution and the relevant legislation on criminal procedure.

2 The accused is not obliged to incriminate himself in criminal proceedings.

3 The information (Art. 68 and 73) given by the accused in the criminal proceedings or evidence from an audit under Article 78 may be used in criminal proceedings only if the accused consents thereto.

4 The opening of a criminal investigation must be notified in writing to the suspect without delay unless there is good cause for not doing so.

Art. 105 Prescription of the right to prosecute

1 The right to initiate a criminal investigation prescribes as follows:
   a. for infringements of procedural obligations: at the time when the tax claim relating to the offence becomes legally binding;
   b.\textsuperscript{146} in relation to domestic and acquisition tax:
      1. in the case of contraventions under Article 96 paragraphs 1–3: six months after the relevant tax claim becomes legally binding;
      2. for tax evasion offences under Article 96 paragraph 4: two years after the relevant tax claim becomes legally binding;
      3. for offences under Article 97 paragraph 2 and under Articles 14–17 ACLA\textsuperscript{147}: seven years after the end of the relevant tax period.

\textsuperscript{145} SR 311.0
\textsuperscript{146} Amended by No I of the FA of 30 Sept. 2016, in force since 1 Jan. 2018 (AS 2017 3575; BBl 2015 2615).
\textsuperscript{147} SR 313.0
c. in relation to import tax: for all misdemeanours and contraventions under Articles 96, 97 paragraph 2 and 99 and in the case of misdemeanours under Articles 14–17 ACLA: in seven years;
d. and e. ...  

2 The prescriptive period for prosecution ceases to apply if before expiry of the prescriptive period a summary penalty order or a judgment in the first instance is issued.

3 The prescriptive period for the payment and refund obligation under Article 12 ACLA is governed:
   a. in principle by Article 42;
   b. if an offence covered by Article 96 paragraph 4, 97 paragraph 2 or 99 or by Articles 14–17 ACLA is fulfilled, by paragraphs 1 and 2.

4 The right to conduct a criminal investigation that has already been initiated prescribes after five years; the prescriptive period is suspended for as long as the accused person is abroad.

Art. 106 Collection of fines and costs and prescription

1 The fines and costs imposed in the criminal proceedings in respect of tax offences are collected in accordance with Articles 86–90. Article 36 SCC applies.

2 Prescription of the right to collect fines and costs are governed by Article 91.

2 Supplies made before this Act came into force and imports of goods for which the import tax debt arose before this Act came into force are governed by the former law.

Art. 113 Application of the new law
1 In order to determine whether the exemption from tax liability under Article 10 paragraph 2 exists when this Act comes into force, the new law shall be applied to the supplies taxable under this Act generated in the twelve months prior to it coming into force.

2 The provisions on retrospective input tax deduction under Article 32 also apply to supplies that did not entitle the taxable person to make an input tax deduction before this Act came into force.

3 Subject to Article 91, the new procedural law applies to all procedures pending on the date that this Act comes into force.

Art. 114 Election options
1 Taxable persons may, when this Act comes into force, again make use of the election options provided for in this Act. If the election options are linked to specific deadlines, they begin to run again on the date that this Act comes into force.

2 If the taxable person does not respond to the election options within 90 days of this Act coming into force, it is assumed that the person is abiding by his election, provided this continues to be legally possible.

155 The amendments may be consulted under AS 2009 5203.
Art. 115 Change of the tax rates

1 If the tax rates change, Articles 112 and 113 apply by analogy. The Federal Council shall update the maximum amounts laid down in Article 37 paragraph 1 as appropriate.\textsuperscript{156}

2 Taxable persons must be allowed sufficiently long periods for the reporting of the tax amounts at the previous rates that are geared to the nature of the supply and service agreements.

Art. 115a\textsuperscript{157} Transitional provision to the Amendment of 30 September 2016

\(^3\) A sale of goods with simultaneous leaseback to the seller for use (sale and lease-back business) does not qualify as a supply of goods if at the time of the conclusion of the contract a re-transfer is agreed. In this case the service of the lessor does not qualify as making goods available for use, but as a financing service under Article 21 paragraph 2 number 19 letter a VAT Act.
Art. 3 Declaration of subjection on import of goods
(Art. 7 para. 3 let. a VAT Act)²

1 ...³

2 If the import is made in the supplier’s own name based on a declaration of subjection, for serial transactions the prior supplies of goods are deemed to be made abroad and the subsequent supplies on Swiss territory.

3 If the supplier does not intend to import in its own name, it must disclose this on the customer’s invoice.⁴

Art. 4⁵ Supply of goods from abroad onto Swiss territory from a warehouse on Swiss territory
(Art. 7 para. 1 VAT Act)

Art. 6a<sup>7</sup> Place of supply for restaurant, cultural and similar supplies while transporting passengers in border areas
(Art. 9 VAT Act)
1 If supplies under Article 8 paragraph 2 letters c and d VAT Act are made while transporting passengers in border areas that are partly on Swiss territory and partly abroad or are on Lake Constance, and if the place of supply cannot be clearly determined as being on Swiss territory or abroad, the supply is deemed to be made at the place where the person making the supply has its place of business, or a permanent establishment or, in the absence of such a place of business or such a permanent establishment, its domicile or the place from which it works.

Art. 8

Exemption and termination of the exemption from tax liability for Swiss businesses

1 Businesses with place of business, domicile or permanent establishment on Swiss territory that commence their activity or extend their activity by taking over a business or opening a new business division are exempt from tax liability if at the time, based on the circumstances, it must be assumed that the turnover threshold referred to in Article 10 paragraph 2 letter a or c VAT Act for supplies made on Swiss territory and abroad will not be achieved in the following twelve months. If it is not yet possible at the time to assess whether the turnover threshold will be achieved, a re-assessment must be carried out within three months at the latest.

2 Where it must be assumed based on the re-assessment that the turnover threshold will be achieved, the exemption from tax liability ends either:
   a. on the date of commencement or expansion of the activity; or
   b. on the date of the re-assessment, but at the latest at the beginning of the fourth month.

If it is not yet possible at the time to assess whether the turnover threshold will be achieved, a re-assessment must be carried out within three months at the latest.

2 Where it must be assumed based on the re-assessment that the turnover threshold will be achieved, the exemption from tax liability ends either:
   a. when a supply is made for the first time on Swiss territory; or

b. on the date of the re-assessment, but at the latest at the beginning of the fourth month.

3 For businesses previously exempt from tax liability, the exemption from tax liability ends with the business year in which the relevant turnover threshold is achieved. Section 1  Assessment Basis

Art. 45  Considerations in foreign currency
(Art. 24 para. 1 VAT Act)

1 For purposes of calculating the VAT payable, considerations paid in foreign currency must be converted into national currency at the date the tax claim arises.

2 A consideration is in foreign currency if the invoice or the receipt is issued in foreign currency. If no invoice or receipt is issued, the book entry of the supplier applies. It is irrelevant whether the payment is in national or foreign currency and in which currency the change is paid.

3 The conversion is made on the basis of the rate of exchange published by the FTA, whereby the taxable person may elect to use the average monthly rate or the daily exchange rate.32

3bis Where the FTA does not publish an exchange rate for a foreign currency, the daily exchange rate for the sale of the foreign currency published by a Swiss bank applies.33

4 Taxable persons that are members of a group of companies may use the group conversion rate for their conversion. This rate must be applied both to supplies within the group of companies and in relation to third parties.34

5 The procedure chosen (monthly average, daily or group rates) must be retained for at least one tax period.

1 On supplies to employees for consideration, the tax must be calculated on the consideration actually received. Article 24 paragraphs 2 and 3 VAT Act is reserved.

2 Supplies made by the employer to employees which must be declared in the salary certificate are deemed to be made with consideration. The tax must be calculated on the amount that is also applicable for direct taxes.

Supplies which do not have to be declared in the salary certificate constitute supplies made without consideration and it is assumed that a business reason exists.

Where lump sums that are permissible for determining the wage elements applicable for direct tax purposes may also serve to assess the VAT, they may also be used for VAT purposes.

When applying paragraphs 2–4, it is irrelevant whether the persons concerned are closely related persons as stipulated under Article 3 letter h VAT Act.

**Art. 48** Cantonal contributions to water, sewage or waste funds
(Art. 24 para. 6 let. d VAT Act)

3 Where collectors’ items are purchased with other goods for a total price the margin taxation only applies if the portion of the purchase price attributable to the collectors’ items can be estimated.
Art. 48c  Invoicing  
(Art. 24a VAT Act)

Section 3 Correction of the Input Tax Deduction

Art. 65 Methods of calculating the correction
(Art. 30 VAT Act)

The correction of the input tax deduction may be calculated:

   a. according to effective usage;

47 SR 632.10 Annex
48 The correction of 12 Dec. 2017 only concerns the Italian text (AS 2017 7263).
b. using flat rate methods with flat rates laid down by the FTA;
c. based on own calculations.

Art. 66 Flat rate methods
(Art. 30 VAT Act)
The FTA lays down flat rates in particular for:
   a. businesses of banks;
   b. the business of insurance companies;
   c. businesses of specially financed agencies of public authorities;
   d. the granting of loans and for interest income and income from trading in securities;
   e. the management of owned immovable property where taxation is not opted for under Article 22 VAT Act;
   f. Public transport businesses.

Art. 67 Own calculations
(Art. 30 VAT Act)
If the taxable person bases the correction of the input tax deduction on its own calculations, it must give evidence in detail concerning the facts underlying the calculations and carry out a plausibility test.

Art. 68 Choice of method
(Art. 30 VAT Act)
1 The taxable person may use one or more methods to calculate the correction of the input tax deduction, provided the method(s) lead to an adequate result.
2 Adequate is any use of one or more methods that takes account of the principle of efficiency of imposition, is auditable economically and allocates the input taxes according to their use for a particular activity.

Section 4 Own Use

Art. 69 Principles
(Art. 31 VAT Act)
1 The input tax deduction must be corrected in full on goods and services not put to use.
2 The input tax deduction must be corrected on goods and services put to use that are still available at the time the requirements are no longer fulfilled and have a fair value. In the case of supply of services in the fields of consulting, accounting, staff recruitment, management and advertising, it is assumed they are exhausted at the time of their acquisition and are no longer available.
3 In the case of self-manufactured goods, for putting the infrastructure to use, a flat rate surcharge of 33 per cent must be made on the input taxes on materials and on any third party work on semi-finished goods. Alternatively, effective proof of the input taxes applicable to the use of the infrastructure may be provided.

4 If subsequently the requirements for the input tax deduction are only partially fulfilled, the correction must be made to the extent that the use no longer entitles the input tax deduction to be made.

**Art. 70** Determination of the fair value  
(Art. 31 para. 3 VAT Act)

1 The fair value must be calculated on the basis of the acquisition cost, for real estate excluding the value of the land and of value enhancing expenditures. Not to be considered are, however, the value maintenance expenditures. Value maintenance expenditures are those that serve only to maintain the value of the good and its ability to function, in particular service, maintenance, operating and repair costs.

2 In determining the fair value of goods and services put to use, in the first tax period of use the loss in value must be considered for the entire tax period. In the last uncompleted tax period, on the other hand, no depreciation may be made unless the change in use occurs on the last day of the tax period.

**Art. 71** Major immovable property renovations  
(Art. 31 VAT Act)

If the renovation costs in a construction phase exceed in total 5 per cent of the insurance value of the building prior to renovation, the input tax deduction must be corrected on the basis of the total costs, regardless of whether the costs are for value enhancing or maintenance expenditures.

**Section 5 Subsequent Input Tax Deduction**

**Art. 72** Principles  
(Art. 32 VAT Act)

1 The input tax deduction may be corrected in full on goods and services not put to use.

2 The input tax deduction may be corrected on goods and services put to use which still exist and have a fair value at the time the requirements for the input tax deduction are fulfilled. For services in the fields of consulting, accounting, staff recruitment, management and advertising, it is assumed that they are used on acquisition and thereafter cease to exist.

3 In the case of self-manufactured goods, for putting the infrastructure to use, a flat rate surcharge of 33 per cent may be made on the input taxes on materials and on any third party work on semi-finished goods. Alternatively, effective proof of input taxes applicable to the use of the infrastructure may be provided.
If subsequently the requirements for the input tax deduction are only partially fulfilled, the correction may be made only to the extent of the use entitling the input tax deduction to be made.

Art. 73  Determination of the fair value  
(Art. 32 para. 2 VAT Act)
1 The fair value must be calculated on the basis of the acquisition cost, for real estate excluding the value of the land and of value enhancing expenditures. Not to be considered are, however, the value maintenance expenditures. Value maintenance expenditures are those that serve only to maintain the value of the good and its ability to function, in particular service, maintenance, operating and repair costs.
2 In determining the fair value of goods and services put to use, in the first tax period of use the loss in value must be considered for the entire tax period. In the last uncompleted tax period, on the other hand, no depreciation must be made unless the change in use occurs on the last day of the tax period.

Art. 74  Major renovations of immovable property  
(Art. 32 VAT Act)
If the renovation costs in a construction phase exceed in total 5 per cent of the insurance value of the building prior to renovation, the entire input tax deduction may be corrected on the basis of the total costs, regardless of whether the costs are for value enhancing or maintenance expenditures.

Section 6  Reduction of the Input Tax Deduction  
(Art. 33 para. 2 VAT Act)

Art. 75  
1 The input tax need not be reduced if the funds under Article 18 paragraph 2 letters a–c VAT Act are attributable to a business activity for which no input tax is incurred or for which no claim to input tax deduction exists.
2 To the extent the funds under Article 18 paragraph 2 letters a–c VAT Act can be attributed to a specific business activity, only the input tax on the expenditures for this business activity must be reduced.
3 If the funds under Article 18 paragraph 2 letters a–c VAT Act are paid to cover an operating deficit, the input tax must be reduced overall in the proportion of these funds to the total turnover, excluding VAT.
Chapter 6  Calculation and Constitution of the Tax Claim

Section 1  Annual Accounts
(Art. 34 para. 3 VAT Act)

Art. 76\(^49\)

Section 2  Net Tax Rate Method

Art. 77  Principles
(Art. 37 para. 1–4 VAT Act)

1 The taxable supplies made for consideration on Swiss territory must be considered in assessing whether the conditions under Article 37 VAT Act are fulfilled.

2 The net tax rate method may not be chosen by taxable persons who:
   a. may report using the flat tax rate method under Article 37 paragraph 5 VAT Act;
   b. use the movement procedure under Article 63 VAT Act;
   c. use group taxation under Article 13 VAT Act;
   d. have their place of business or a permanent establishment in the valley areas of Samnaun or Sampuoir;
   e.\(^50\) generate more than 50 per cent of their turnovers from taxable supplies to another taxable person who reports using the effective method where the persons involved are under the same management.

3 Taxable persons who report using the net tax rate method may not opt for the taxation of supplies under Article 21 paragraph 2 numbers 1–24, 27, 29 and 30 VAT Act. If the tax is nevertheless invoiced, the tax charged must be paid to the FTA with reservation of Article 27 paragraph 2 VAT Act.\(^51\)

Art. 78  Submission to the net tax rate method on commencement of tax liability
(Art. 37 para. 1–4 VAT Act)

1 Persons newly entered in the Register of Taxable Persons (VAT Register) who wish to submit to the net tax rate method must notify the FTA in writing within 60 days of notification of their VAT number.

2 The FTA shall approve the use of the net tax rate method if in the first 12 months both the expected turnover and the expected taxes do not exceed the thresholds in Article 37 paragraph 1 VAT Act.

\(^{49}\) Comes into force at a later date.
If no request is made within the period in paragraph 1, the taxable person must report for at least three years using the effective reporting method before it may submit to the net tax rate method. An earlier change of the reporting method is possible at the time of any adjustment to the net tax rate that is not due to a change in the rates of taxation under Articles 25 and 55 VAT Act.52

Paragraphs 1–3 also apply to retroactive entries analogously.

The VAT chargeable on the stock of goods, the operating material and the fixed assets at the start of tax liability is taken into account in applying the net tax rate method. No subsequent input tax deduction may be made.

Art. 79 Change from the effective reporting method to the net tax rate method
(Art. 37 para. 1–4 VAT Act)

1 Taxable persons who wish to change from the effective reporting method to the net tax rate method must notify the FTA in writing at the latest 60 days after the beginning of the tax period from which the change is to be made. If the notification is late, the change is effective for the beginning of the subsequent tax period.  

2 The FTA shall approve the use of the net tax rate method if in the prior tax period neither of the thresholds in Article 37 paragraph 1 VAT Act was exceeded. 

3 On changing from the effective reporting method to the net tax rate method, no corrections or changes shall be made to the stock of goods, the operating material and the fixed assets. The foregoing does not apply to a correction under Article 93 where immovable goods are used after the change to a negligible extent for an activity entitling the input tax deduction to be made.53

4 If simultaneously with submission to the net tax rate method the manner of reporting under Article 39 VAT Act is also changed, the following corrections must be made:

a. if a change is made from agreed to collected considerations, the FTA shall credit the taxable person the tax at the appropriate statutory tax rate on the taxable supplies invoiced but not yet paid on the date of change (debtor items) and at the same time charge the input tax on the taxable supplies invoiced to it, but not yet paid (creditor items);

b. if a change is made from collected to agreed considerations, the FTA shall charge the tax on the debtor items existing on the date of change at the appropriate statutory tax rate and at the same time credit the input tax on the creditor items.

Art. 80  Withdrawal of approval  
(Art. 37 para. 1–4 VAT Act)

The FTA may retroactively withdraw approval to use this reporting method from taxable persons who have been permitted to use the net tax rate method on the basis of false information.

Art. 81  Change from the net tax rate method to the effective reporting method  
(Art. 37 para. 1–4 VAT Act)

1 Taxable persons who wish to change from the net tax rate method to the effective method must notify the FTA in writing at the latest 60 days before the beginning of the tax period from which the change is to be made. If the request is late, the change is effective from the beginning of the subsequent tax period.

2 Persons who exceed one or both thresholds laid down in Article 37 paragraph 1 VAT Act in two consecutive tax periods by up to 50 per cent must change to the effective reporting method at the beginning of the following tax period.

3 Persons who exceed one or both thresholds laid down in Article 37 paragraph 1 VAT Act by more than 50 per cent must change to the effective reporting method at the beginning of the following tax period. If the thresholds are exceeded in the first 12 months of submission to the net tax rate method, approval is withdrawn retroactively.

4 If one or both thresholds are exceeded by more than 50 per cent due to the takeover of all or part of the assets under the notification procedure, the taxable person may decide whether it wishes to change to the effective reporting method retroactively to the beginning of the tax period in which the takeover took place or at the beginning of the subsequent tax period.

5 On change from the net tax rate method to the effective reporting method, there are no corrections to the stock of goods, the operating material and the fixed assets. The foregoing does not apply to a subsequent input tax deduction under Article 32 VAT Act if the stock of goods, the operating material and the fixed assets are used to a greater extent after the change for an activity entitling the input tax deduction to be made.54

6 If at the same time as the change to the effective reporting method the manner of reporting under Article 39 VAT Act is also changed, the following corrections must be made:

   a. if a change is made from agreed to collected considerations, the FTA shall credit the taxable person with the tax on the debtor items existing at the date of change at the approved net tax rates. No corrections are made to the creditor items;

b. if a change is made from collected to agreed considerations, the FTA shall charge the tax on the debtor items existing at the date of the change at the approved net tax rates. No corrections are made to the creditor items.

**Art. 82**  
End of tax liability  
(Art. 37 para. 1–4 VAT Act)

1 If a taxable person reporting under the net tax rate method ceases its business activities or if, due to failing to reach the turnover threshold in Article 10 paragraph 2 letter a VAT Act, it is exempt from tax liability, the turnovers generated prior to being removed from the VAT Register, the work in progress and, if reporting according to collected considerations, the debtor items are also to be reported at the approved net tax rates.

2 On the date of removal from the VAT Register, the tax must be reported on the fair value of immovable goods at the standard rate applicable at that time, provided:

   a. the good was purchased, constructed or converted by the taxable person when it used the effective method and it has claimed the input tax deduction;

   b. the good was purchased by the taxable person under the notification procedure from a taxable person reporting using the effective method.

3 In determining the fair value of immovable goods, for every year expired one twentieth is reduced on a straight line basis.

**Art. 83**  
Takeover of assets under the notification procedure  
(Art. 37 para. 1–4 VAT Act)

1 If, from the date of the takeover, a taxable person reporting under the net tax rate method does not use all or part of the assets taken over using the notification procedure under Article 38 VAT Act or uses such assets only to a lesser extent than the seller of a business entitled to deduct input tax, the procedure is as follows:

   a. if the seller reports under the net tax rate method, no corrections are made;

   b. if the seller reports under the effective method, on that part of the assets taken over which is used in future for a business activity not entitling him to deduct the input tax, own use within the meaning of Article 31 VAT Act must be reported taking into consideration Article 38 paragraph 4 VAT Act.

2 If a taxable person reporting under the net tax rate method uses all or part of the assets taken over using the notification procedure under Article 38 VAT Act to a greater extent than the seller for a business activity entitling him to deduct the input tax, a correction is not permitted.

Art. 84 Reporting using net tax rates  
(Art. 37 para. 1–4 VAT Act)

1 Taxable persons must report their business activities at the net tax rates approved by the FTA.

2 If a business activity ceases or a new business activity is begun or if the turnover shares of the business activities change in such a way that a new allocation of the net tax rates becomes necessary, the taxable person must contact the FTA.

3 Taxable persons for whom two different net tax rates have been approved must record the revenues for each of the net tax rates separately.

Art. 85 Approval of the use of a single net tax rate  
(Art. 37 para. 1–4 VAT Act)

The taxable person is permitted to use a single net tax rate unless a case under Article 86 paragraph 1 or Article 89 paragraphs 3 or 5 applies.

Art. 86 Approval of the use of two net tax rates  
(Art. 37 para. 1–4 VAT Act)

1 The taxable person is permitted to use two net tax rates if:
   a. it carries on two or more business activities for which the net tax rates laid down by the FTA differ; and
   b. at least two of these business activities each has a share of more than 10 per cent of the total turnover from taxable supplies.

2 The 10 per cent threshold is calculated:
   a. for persons who become newly taxable and for taxable persons who take up a new business activity: based on the expected turnovers;
   b. for the other taxable persons: based on the turnover of the two preceding tax periods.

3 The turnovers of business activities with the same net tax rate must be accumulated in investigating whether the 10 per cent threshold is exceeded.

4 In the case of a taxable person who has been permitted the use of two net tax rates, if only one or more business activities for which the same net tax rate is provided exceed the 10 per cent threshold during two consecutive tax periods, the approval for the use of the second net tax rate lapses at the beginning of the third tax period.

Art. 87 Level of the approved net tax rates  
(Art. 37 para. 1–4 VAT Act)

1 If only two of the taxable person’s business activities exceed the 10 per cent threshold, the use of the two net tax rates laid down for these businesses will be approved.

2 If more than two business activities exceed the 10 per cent threshold, use of the following net tax rates is approved:
   a. the highest of the net tax rates that are laid down for the business activities whose share in the total turnover is more than 10 per cent;
   b. a second net tax rate which the taxable person selects from those tax rates that are laid down for the other business activities whose share in the total turnover is more than 10 per cent.

Art. 88
Taxation of the individual business activities
(Art. 37 para. 1–4 VAT Act)

1 The turnovers from the business activities of a taxable person who has been permitted the use of two net tax rates are taxable:
   a. at the higher approved net tax rate if the net tax rate laid down for the business activity in question lies above the lower approved rate;
   b. at the lower approved rate in the other cases.

2 In cases under Article 19 paragraph 2 VAT Act, the entire consideration may be reported at the approved net rate tax applicable to the majority of the supply. However, if the supplies are all subject to the same tax rate under Article 25 VAT Act, the entire consideration must be reported at the higher approved net rate tax unless the taxable person can show which parts of the consideration apply to the individual supplies.  

Art. 89
Special rule for mixed branches of the industry
(Art. 37 para. 1–4 VAT Act)

1 Mixed branches of the industry are branches of the industry in which several business activities are normally carried on which, if considered separately, would be reported using different net tax rates.

2 The FTA shall lay down in an ordinance:
   a. the net tax rate applicable to each mixed branch of the industry;
   b. the usual main and ancillary business activities in the mixed branch of the industry.

3 Articles 86–88 apply to reporting using net tax rates if the share of one or more business activities usually ancillary to a branch of the industry for which under the FTA’s ordinance the same net tax rate would apply exceed 50 per cent of the turnover of the taxable main business and the taxable business usually ancillary to an industry.

4 The 50 per cent threshold is calculated:

a. for persons who become newly taxable and for taxable persons, who take up a new business: based on the expected turnovers;
b. for the other taxable persons: based on the turnover in the two preceding tax periods.

5 If a taxable person who operates in a mixed branch of the industry also carries on business activities that are alien to the branch of the industry, reporting using net tax rates for these business activities is governed by Articles 86–88.

Art. 90 Special procedures
(Art. 37 para. 1–4 VAT Act)

1 The FTA shall make a procedure for the approximate compensation of the input taxes incurred available to taxable persons reporting using the net tax rate method for:
   a. supplies of goods abroad, if the goods are self-manufactured or purchased with VAT being charged;
   b. supplies to beneficiaries under Article 2 of the Host State Act of 22 June 2007 (HSA), provided the place of supply lies on Swiss territory and for supplies of goods that the goods are self-manufactured or purchased with VAT being charged.

2 Taxable persons reporting using the net tax rate method who purchase individualisable moveable goods without openly transferred tax may use the procedure made available by the FTA to compensate the notional input tax. The procedure does not apply to used automobiles with an overall weight not exceeding 3,500 kg or to goods:
   a. that the taxable person has accepted under the notification procedure from a person reporting using the effective method;
   b. that the taxable person knows or should have known were imported exempt from the tax;
   c. that the taxable person acquired exempt from the tax on Swiss territory; or
   d. that the taxable person accepted as part of a claim settlement, provided the payments made exceed the actual value of the good at the time of acceptance.62

2bis The procedure under paragraph 2 applies in an analogous manner when collectors’ items (Art. 48a) are sold.63

3 For businesses and events under Article 55 paragraph 3, the FTA provides for a flat rate arrangement for the approximate division of the turnovers between the two net tax rates.

61 SR 192.12
Art. 91  Reporting of the acquisition tax
(Art. 37 para. 1–4 VAT Act)

Taxable persons reporting using the net tax rate method who acquire supplies from
businesses with their place of business abroad under Articles 45–49 VAT Act, must
pay the acquisition tax semi-annually at the appropriate statutory tax rate.

Art. 92  Own use
(Art. 37 para. 1–4 VAT Act)

Own use, with the exception of Article 83 paragraph 1 letter b, is taken into account
in applying the net tax rate method.

Art. 93  Corrections of immovable goods
(Art. 37 para. 1–4 VAT Act)

1 If an immovable good is no longer used in the business activities of the taxable
person or is used newly for a business activity exempted from the tax without credit
under Article 21 paragraph 2 VAT Act, the tax must be charged on the fair value at
the standard rate at that time provided:

   a. the good was purchased, constructed or converted by the taxable person
      when the person used the effective reporting method and claimed the input
tax deduction;

   b. the good was purchased by the taxable person under the notification proce-
dure from a taxable person applying the effective reporting method.

2 To determine the fair value of the immovable goods, for every completed year the
value is reduced by one twentieth on a straight line basis.

Art. 94  Supplies to closely related persons and employees
(Art. 37 para. 1–4 VAT Act)

1 Supplies to closely related persons are, subject to Article 93, reported as follows
when reporting using net tax rates:

   a. and b. …

   c. goods and services are reported using the approved net tax rate at a value
equal to the consideration paid, but at least at the amount that would be
agreed between independent third parties;

64 Amended by No I of the Ordinance of 18 Oct. 2017, in force since 1 Jan. 2018
(AS 2017 6307).
65 Amended by No I of the Ordinance of 18 Oct. 2017, in force since 1 Jan. 2018
(AS 2017 6307).
67 Repealed by No I of the Ordinance of 18 Oct. 2017, with effect from 1 Jan. 2018
(AS 2017 6307).
68 Amended by No I of the Ordinance of 18 Oct. 2017, in force since 1 Jan. 2018
(AS 2017 6307).
d. if reporting is done using two net tax rates and the supply cannot be allocated to a business activity, the higher rate is used.

2 Using net tax rates for reporting, supplies to employees are treated as follows:
   a. goods given and services supplied for consideration to employees are reported at the approved net tax rate;
   b. if reporting is done using two net tax rates and the supply cannot be allocated to a business activity, the higher rate is used.

3 For closely related persons who are also employees, paragraph 2 applies.69

4 Supplies that must be included in the salary certificate for direct tax purposes always constitute supplies for consideration. The tax must be calculated on the amount that is also applicable for direct tax purposes.70

Art. 95 Sales of equipment and fixed assets
(Art. 37 para. 1–4 VAT Act)

Sales of equipment and fixed assets that are not used exclusively to provide supplies that are exempt from the tax without credit must be reported at the approved net tax rate. If reporting is done using two net tax rates and the equipment or the fixed assets were used for both business activities, the considerations must be reported at the higher net tax rate.

Art. 96 Invoicing at an excessive tax rate
(Art. 37 para. 1–4 VAT Act)

If a taxable person reporting using net tax rates invoices a supply at an excessive tax rate, the person must, in addition to the VAT calculated at the net tax rate, also pay the difference between the tax calculated using the tax rate disclosed and the tax calculated using the tax rate under Article 25 VAT Act. The consideration is regarded as including VAT.

Section 3 Flat Tax Rate Method

Art. 97 Principles
(Art. 37 para. 5 VAT Act)

1 Related institutions under Article 37 paragraph 5 VAT Act are in particular communal associations and other combinations of public authorities, parishes, private schools and boarding schools, private hospitals, medical treatment centres, rehabilitation centres, sanatoria, private home care organisations, old people’s homes,
nursing homes, seniors residences, charitable businesses, such as disabled work-shops, hostels and special schools, operators of sports facilities and cultural centres subsidised by public authorities, cantonal building insurers, water cooperatives, public transport businesses, private law forest corporations subsidised by public authorities, organisers of non-recurring cultural and sports events, associations under Articles 60–79 of the Civil Code\(^\text{72}\) (CC) and foundations under Articles 80–89bis CC.

2 There are no monetary thresholds for the use of the flat tax rate method.

3 Taxable persons who report using the flat tax rate method may not opt for the taxation of supplies under Article 21 paragraph 2 numbers 1–25, 27 and 29 VAT Act. If the tax is nevertheless invoiced, the tax charge must be paid to the FTA with reservation of Article 27 paragraph 2 VAT Act.\(^\text{73}\)

4 Autonomous agencies under Article 12 paragraph 1 VAT Act that merge to form a single taxable entity (Art. 12 para. 2 VAT Act) may apply the flat tax rate method.\(^\text{74}\)

**Art. 98** Submission to the flat tax rate method and change of the reporting method
(Art. 37 para. 5 VAT Act)

1 Public authorities and related institutions under Article 97 paragraph 1 which wish to report using the flat tax rate method must notify the FTA in writing.

2 The flat tax rate method must be retained for at least three tax periods. If the taxable person elects for the effective reporting method, the person may change to the flat tax rate method at the earliest after ten years. An earlier change of the reporting method is possible at the time of any adjustment to the flat tax rate that is not due to a change in the rates of taxation under Articles 25 and 55 VAT Act.\(^\text{75}\)

3 Changes to the reporting method are possible at the beginning of a tax period. They must be notified to the FTA in writing at the latest 60 days after the beginning of the tax period from which the change is to be made. If the notification is late, the change is effective at the beginning of the subsequent tax period.

**Art. 99** Flat tax rate
(Art. 37 para. 5 VAT Act)

1 When using the flat tax rate method, the tax claim is determined by multiplying the total of the considerations generated in a reporting period, including tax, by the flat tax rate approved by the FTA.

2 The FTA establishes the flat tax rates taking account of the input tax amounts usual in the relevant branch of the industry. A business activity for which no flat tax rate

\(^{72}\) SR 210
has been established must be reported at the rate applicable for the net tax rate method.

3 The taxable person must report each of its business activities with the appropriate flat tax rate. The number of applicable flat tax rates is not limited.

Art. 99a Reporting the acquisition tax
(Art. 37 para. 5 VAT Act)
Taxable persons reporting using the flat tax rate method who acquire supplies from businesses with their place of business abroad in accordance with Articles 45–49 VAT Act must pay the acquisition tax on a quarterly basis at the relevant statutory tax rate.

Art. 100 Applicability of the rules of the net tax rate method
(Art. 37 para. 5 VAT Act)
Unless this Section provides otherwise, Articles 77–96 also apply.

Section 4 Notification Procedure

Art. 101 Part of the assets
(Art. 38 para. 1 VAT Act)
Every smallest unit in a business that is viable by itself constitutes a part of the assets.

Art. 102 Tax liability of the purchaser
(Art. 38 para. 1 VAT Act)
The notification procedure must also be used if the purchaser only becomes liable for the tax in connection with the transfer of all or part of the assets.

Art. 103 Invoice
(Art. 38 para. 1 VAT Act)
If the notification procedure is used, this must be stated on the invoice.

Art. 104 Voluntary use of the notification procedure
(Art. 38 para. 2 VAT Act)
Provided both parties are liable for the tax, the notification procedure may be used:
  a. on the transfer of immovable property or parts of immovable property;
  b. on application of the transferring person, if there are material interests.

Art. 105  Degree of use  
(Art. 38 para. 4 VAT Act)

It is assumed that the seller has used the assets transferred entirely for the business activities entitling the input tax deduction. A different degree of use must be proved by the purchaser.

Section 5  Form of Reporting and Assignment of the Tax Claim

Art. 106  Change in the form of reporting under the effective method  
(Art. 39 VAT Act)

1 On changing from reporting under the collected considerations to reporting under the agreed considerations method, the taxable person must in the reporting period following the change:
   a. report the tax on the debtor items existing at the time of change; and
   b. deduct the input taxes on the creditor items existing at the time of change in connection with the business activities entitling the input tax deduction.

2 On changing from reporting under the agreed considerations to the collected considerations method, the taxable person must in the reporting period following the change:
   a. deduct the debtor items existing at the time of change from the considerations collected in this reporting period; and
   b. deduct the input taxes on the creditor items existing at the time of the change from the input taxes paid in this reporting period.

3 If simultaneously with the change in the form of reporting the reporting method under Articles 36 and 37 VAT Act is also changed, Article 79 paragraph 4 or Article 81 paragraph 6 applies.

Art. 107  Change in the form of reporting when reporting under the net tax rate method or the flat rate tax method  
(Art. 39 VAT Act)

1 On changing from reporting on the basis of the collected considerations to reporting on the basis of the agreed considerations, the taxable person must report the claims existing at the time of change at the approved net tax rates or, where applicable, flat tax rates in the reporting period following the change.

2 On changing from reporting on the basis of the agreed considerations to reporting on the basis of the collected considerations, the taxable person must deduct the

debtor items existing at the time of the change from the considerations collected in this reporting period in the reporting period following the change.

3 If at the same time as changing of the form of reporting the reporting method is also changed, Article 79 paragraph 4 or Article 81 paragraph 6 applies.

**Art. 108** Assignment and pledge of the tax claim
(Art. 44 para. 2 VAT Act)

On assignment and pledge of the tax claim, the confidentiality provisions under Article 74 VAT Act do not apply.

**Title 3 Acquisition Tax**

**Art. 109 and 110**
